

RTR Software Quick Start Guide

Agenda

1. RTR Software Setup

- Login
- Create first site

2. Connect Infrastructure Products

- Connect docks, kiosks, device links

3. Additional Setup Options

- Change and Reset password
- Add Software users
- Setup notifications
- Setup Star rating

RTR Software Setup

Login and creating first site

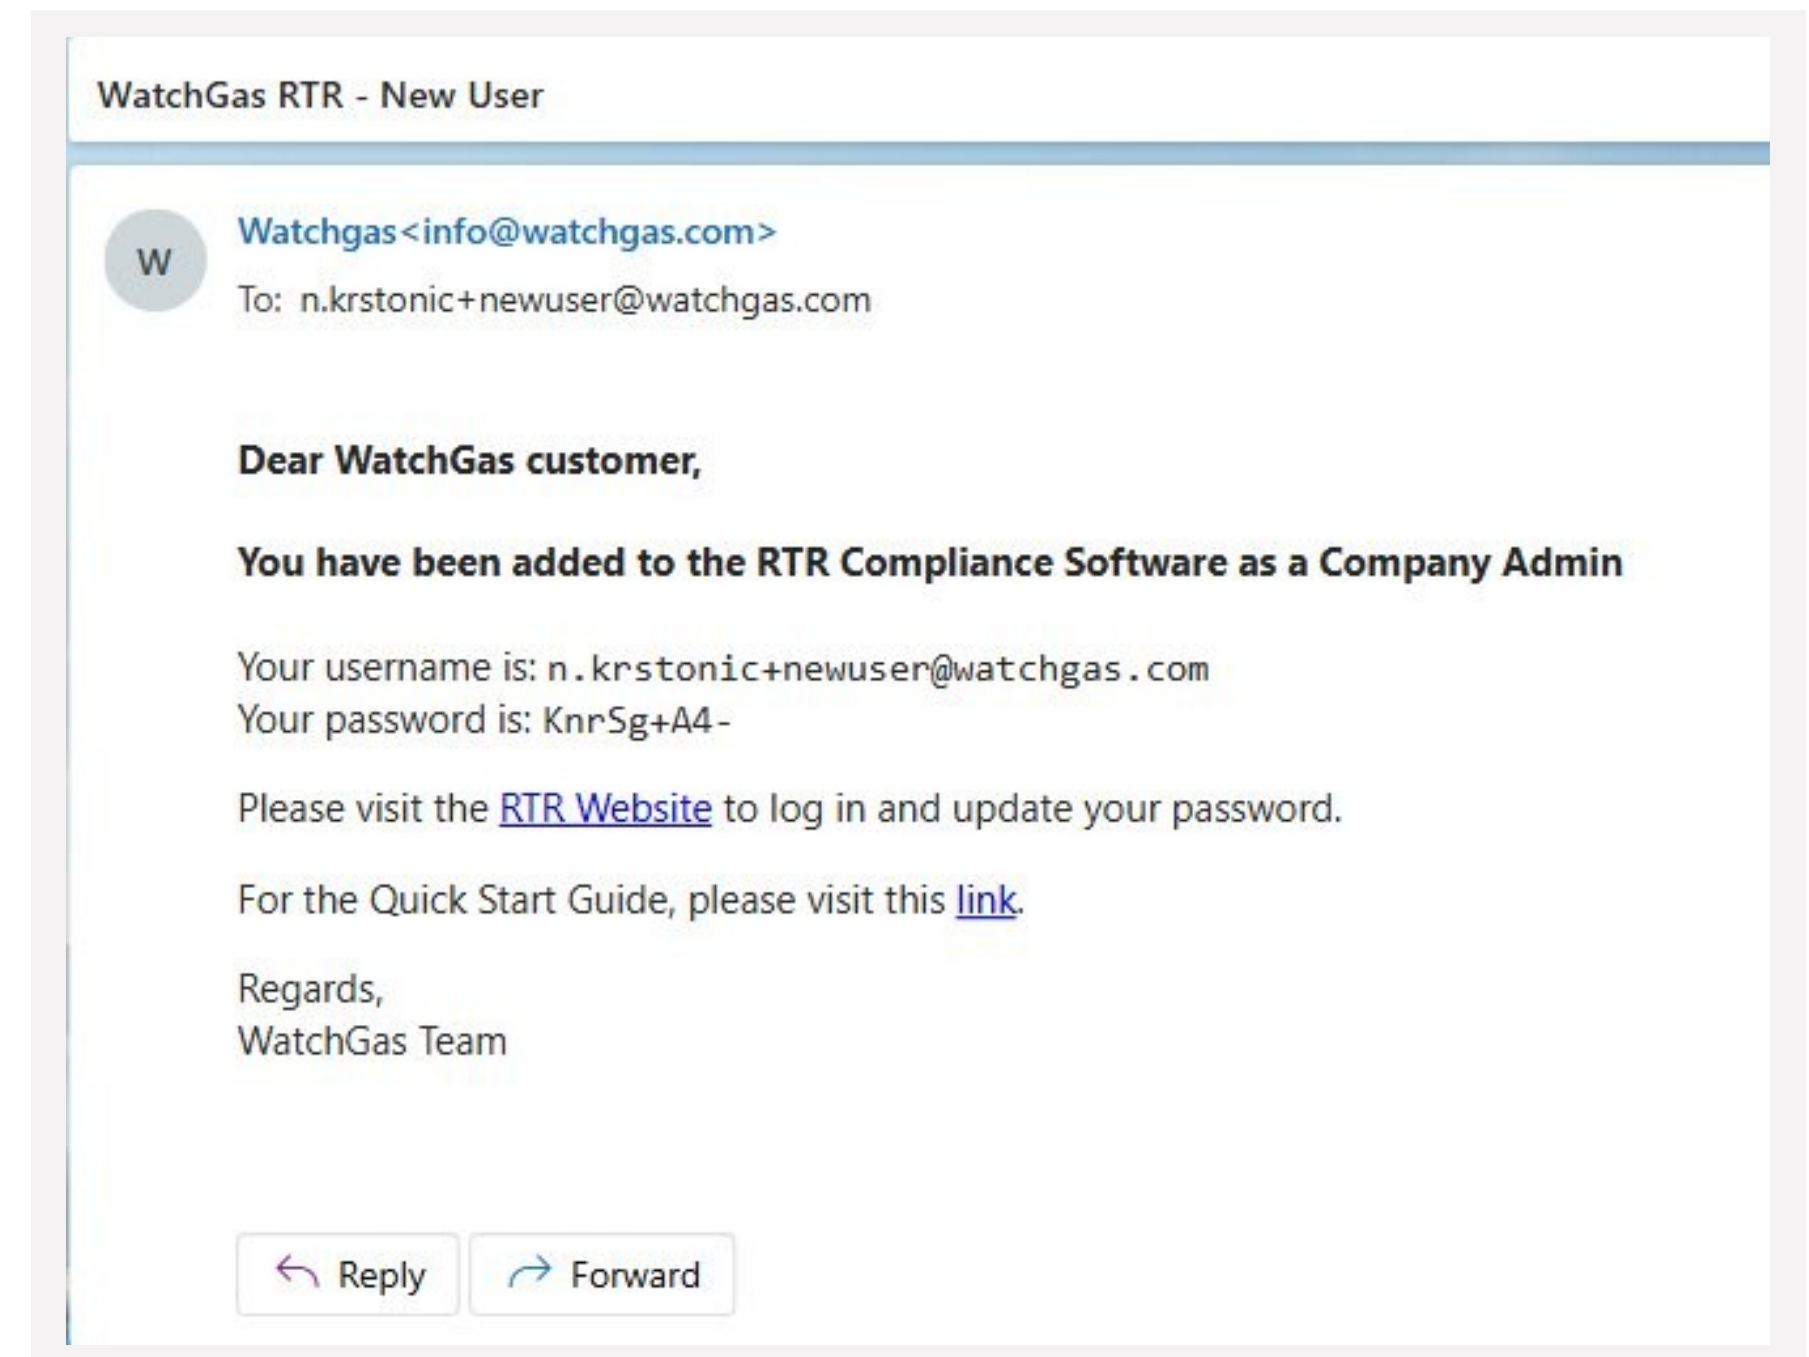

Login to RTR Website

Once the license is activated, the system will send a welcome email.

- ① Click on the "RTR Website" link provided in the email..
- ② This link will take you to RTR application.
- ③ Copy email and password for next step

Login to RTR Website

North America hosting: Ensure you are accessing the platform via www.rtr-us.watchgas.com.

Europe and International: Make sure you are using www.rtr-eu.watchgas.com.

① Copy the email and password provided.

② Click "Login" to proceed.

A screenshot of the Watchgas Data Portal login page. The page has a dark grey background. At the top center is the "watchgas detection" logo. Below it, the text "Watchgas Data Portal" is centered. The login form is a white rectangle with a light grey border. It contains an "Email" label above a text input field with the placeholder "your.email@gmail.com". Below that is a "Password" label above a text input field with masked characters "*****". To the left of the password field is a checkbox labeled "Remember me?". To the right is a red link that says "Forgot your password?". At the bottom of the form is a dark grey rounded rectangle button with the text "Log in" in white. At the very bottom of the page, there is a small line of text: "This site uses cookies to store essential information. By logging on you accept this. See [here](#)  for details."

First Time Setup

Each RTR software license starts with no pre-configured data. Below is a guide to help you navigate menu:

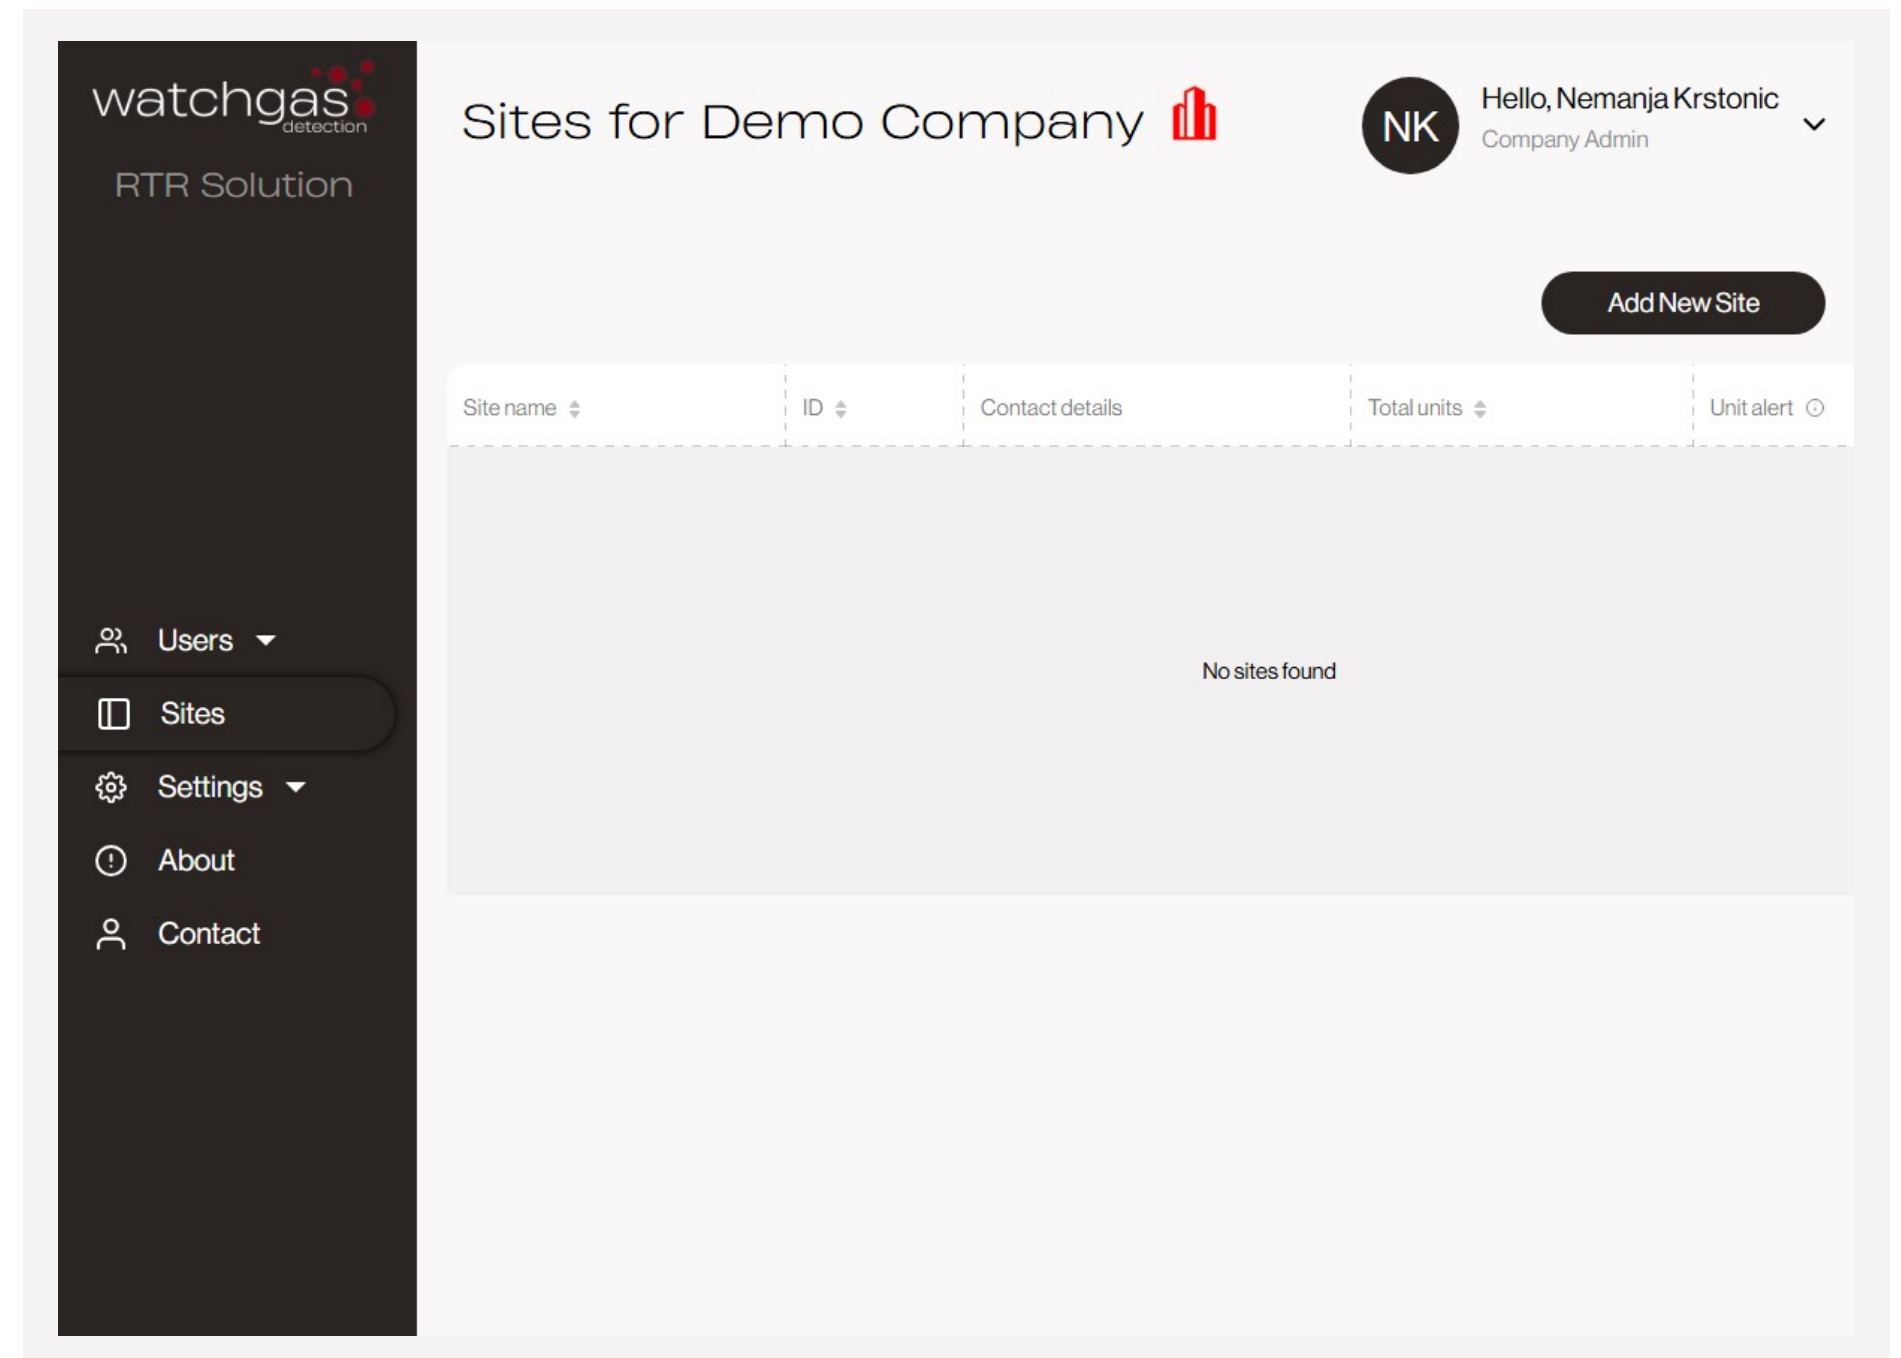

- **Users:** Add, edit and delete software users

Note: Assign end users as **Site Admins** only — **not** Company Admins, to restrict access to company-wide data.

- **Sites:** Add, edit and delete sites

- **Settings:** Edit company settings

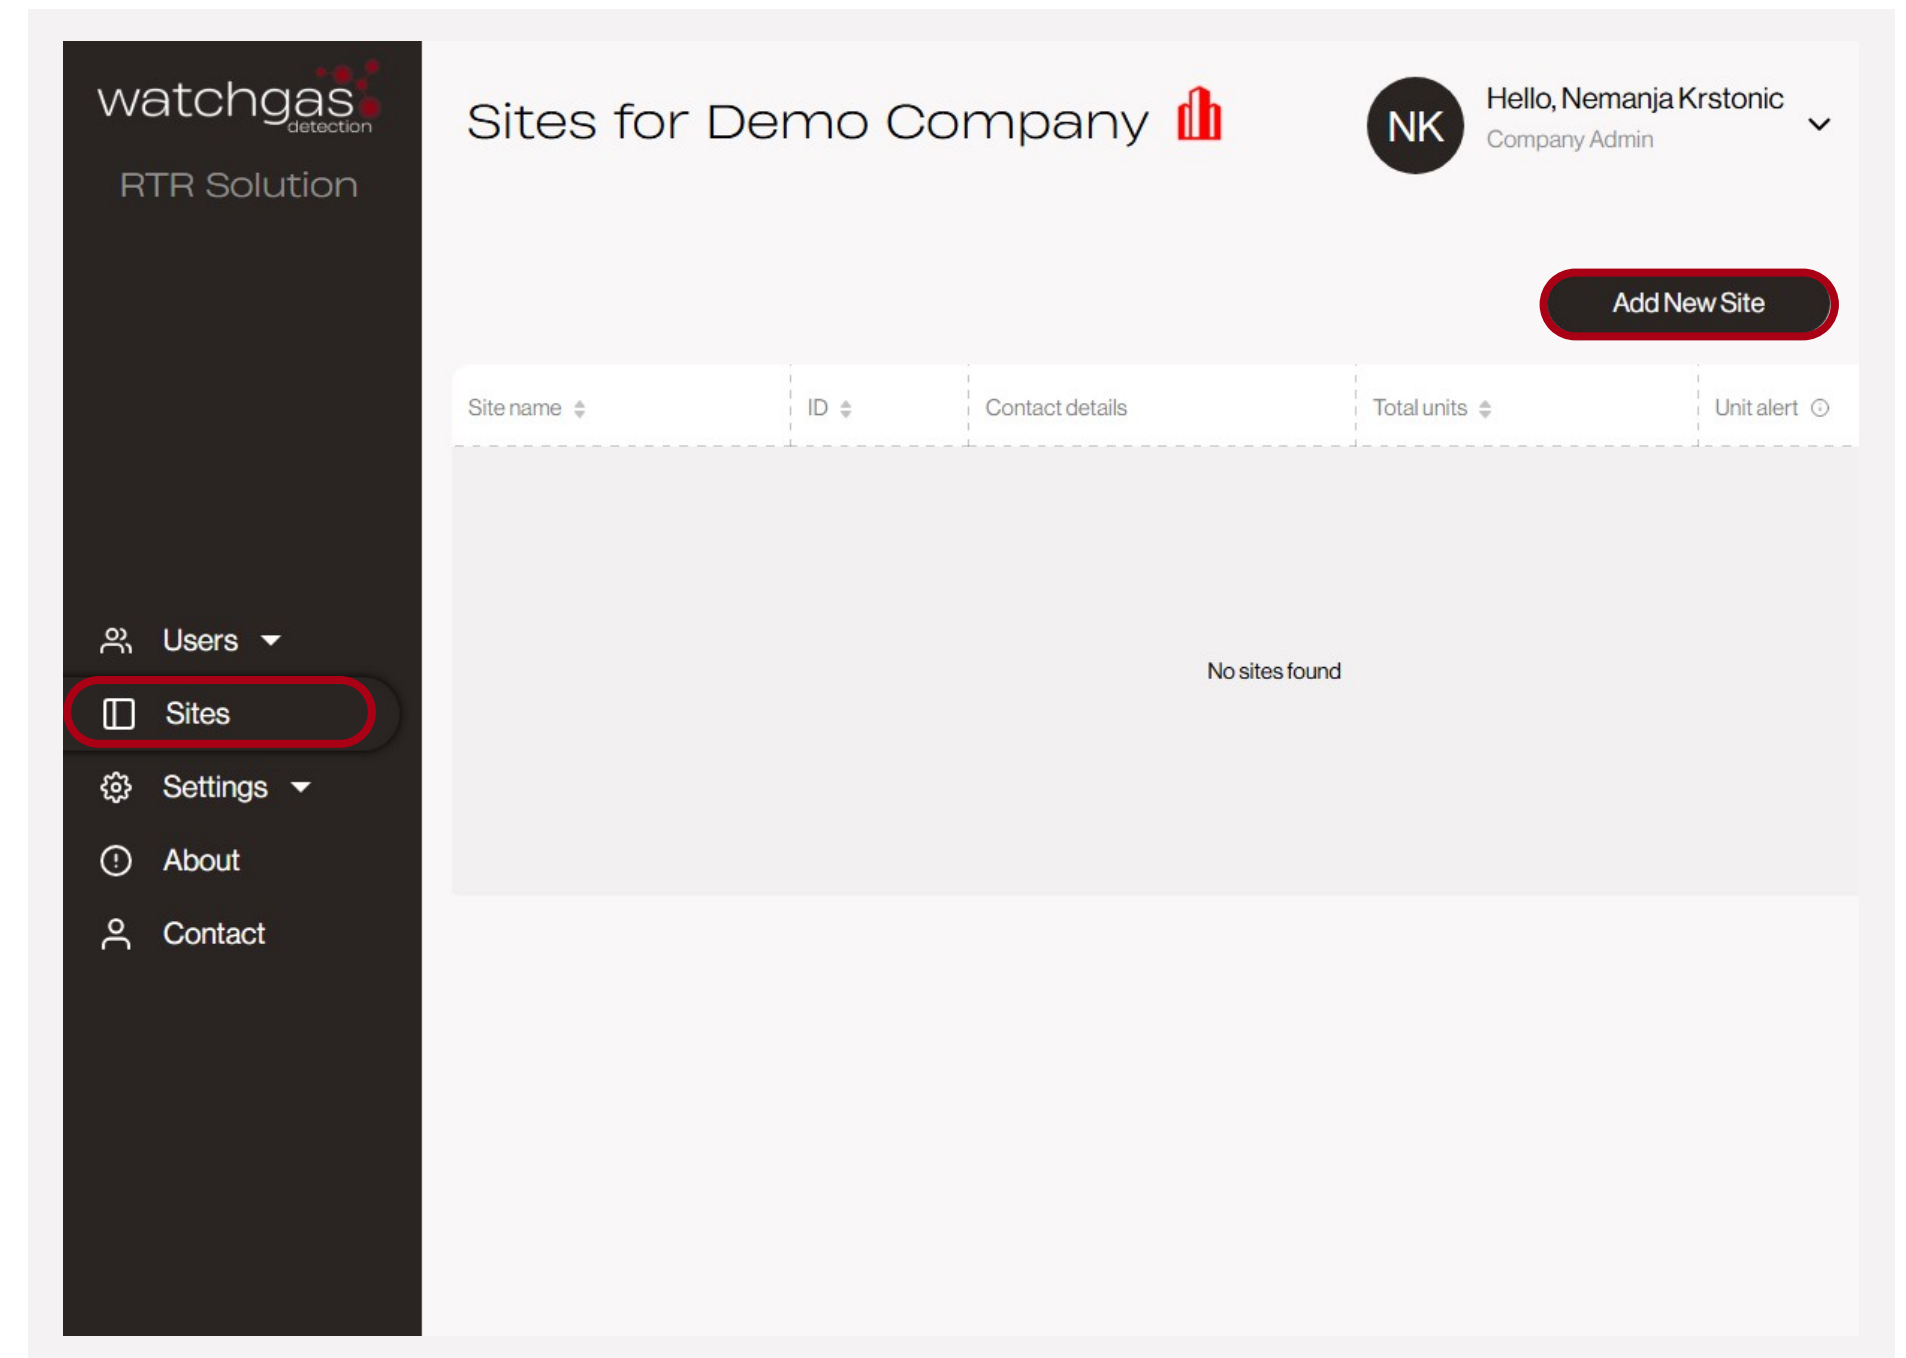

- My details
- Notifications
- Company information and logo

Quick Setup - Site

- 1 Click on “Sites.”
- 2 Then select “Add New Site.”

Note: You can create unlimited number of sites.

Quick Setup - Site

- 3 Fill in the site details. Make sure to select correct time zone for your site.

Note: You can update these details later if needed.

A screenshot of the 'Create Site' form in the watchgas RTR Solution interface. The interface has a dark sidebar on the left with navigation links: 'Users', 'Sites' (highlighted), 'Settings', 'About', and 'Contact'. The main content area is titled 'Create Site' and 'Site Details'. It includes a 'Back' link and several input fields: 'Site Name', 'Address1', 'Address2', 'Address3', 'Address4', 'Town', 'Post Code', 'State', 'Country', and 'Time Zone'. The 'Time Zone' field is a dropdown menu currently showing '(UTC+01:00) Amsterdam, Berlin, Bern, Rome, Stockholm, V'. A 'Next' button is at the bottom right. In the top right corner, there is a user profile for 'NK' (Nemanja Krstonic, Company Admin).

Quick Setup - Site

4 Choose a Site Admin

This person will be responsible for managing the site. You may select an existing user or add a new site admin.

Note: The site admin role grants access to only a single site.

A screenshot of the "Create Site" page in the watchgas RTR Solution interface. The page has a dark sidebar on the left with the watchgas logo and "RTR Solution" text, and a menu with "Users", "Sites", "Settings", "About", and "Contact". The main content area is light gray and titled "Create Site" with a subtitle "Site Admin". It includes a "Back" link, two radio buttons for "Add new site admin" and "Select existing site admin" (the latter is selected), a "Select User" dropdown menu showing "Nemanja Krstonic", and "Previous" and "Save" buttons. In the top right corner, there is a user profile for "Nemanja Krstonic" with the initials "NK" and the role "Company Admin".

Quick Setup - Site

Your first site has been created. Each site is assigned a unique ID, which will be used to connect infrastructure devices.

Make a note of the ID shown in the second column (e.g., MVMRFGCF).

Note: Your site will have a different unique ID than one shown in the picture.

The screenshot shows the "watchgas detection RTR Solution" web interface. On the left is a dark sidebar with navigation links: "Users", "Sites" (highlighted), "Settings", "About", and "Contact". The main content area is titled "Sites for Demo Company" and includes a user profile for "Nemanja Krstonic" (Company Admin) and an "Add New Site" button. Below this is a table with columns: "Site name", "ID", "Contact details", "Total units", and "Units". The first row shows a site named "Test Site" with ID "MVMRFGCF" (circled in red), contact details for Nemanja Krstonic (email: n.krstonic+demo@watchgas.com, phone: 0641114310), and 0 total units.

Site name	ID	Contact details	Total units	Units
Test Site	MVMRFGCF	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	0	

Infrastructure Setup

Docking stations, Device links (free phone app) and Kiosks stations

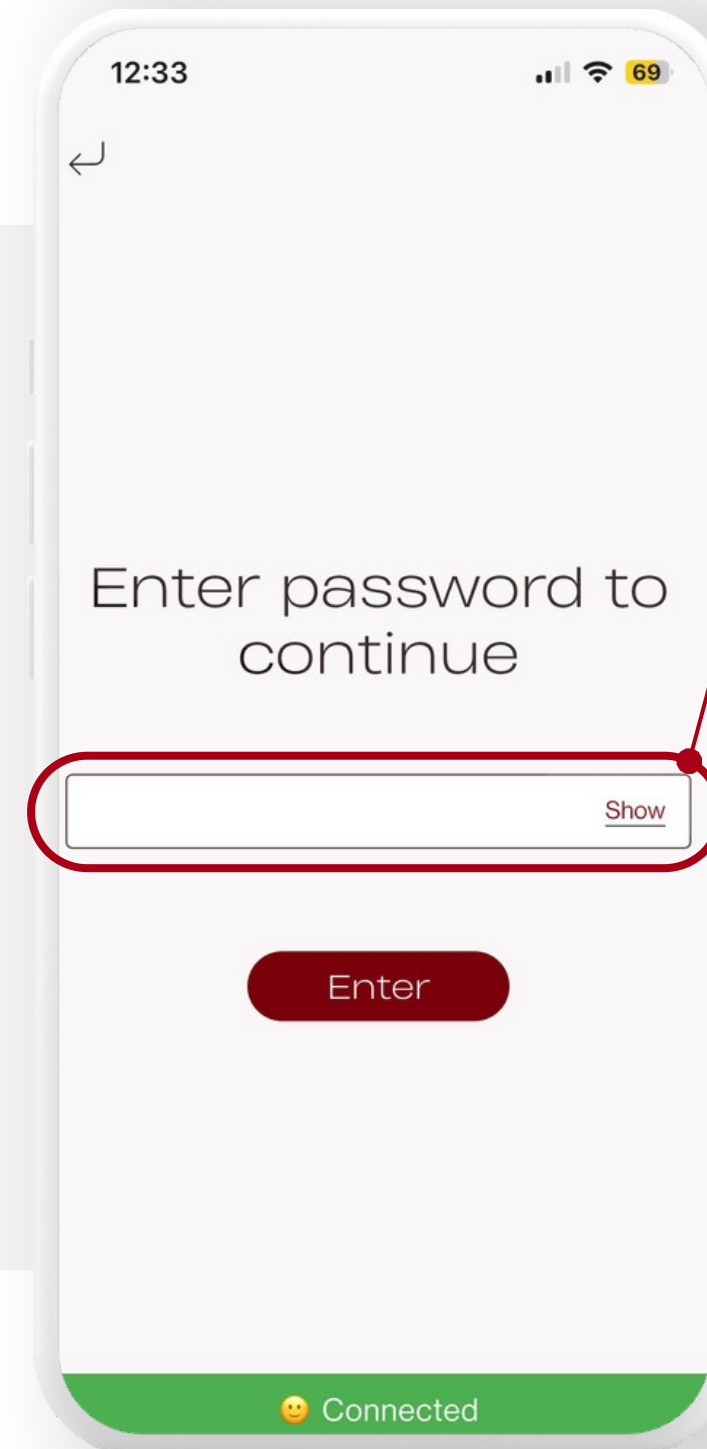

Quick Setup – Connect infrastructure (1/5)

Next step is to connect infrastructure.

Dock, Kiosk and Device link (phone app) all follow the same process.

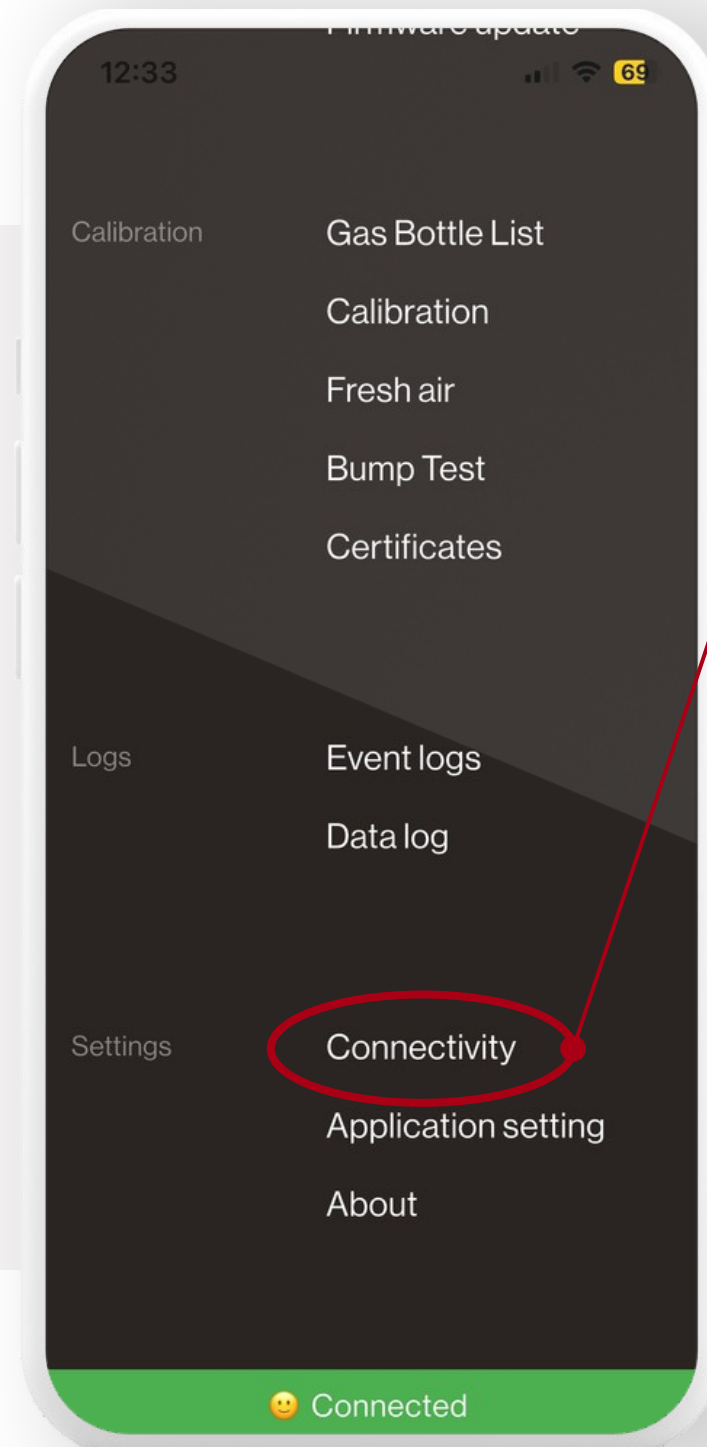

1 Open menu

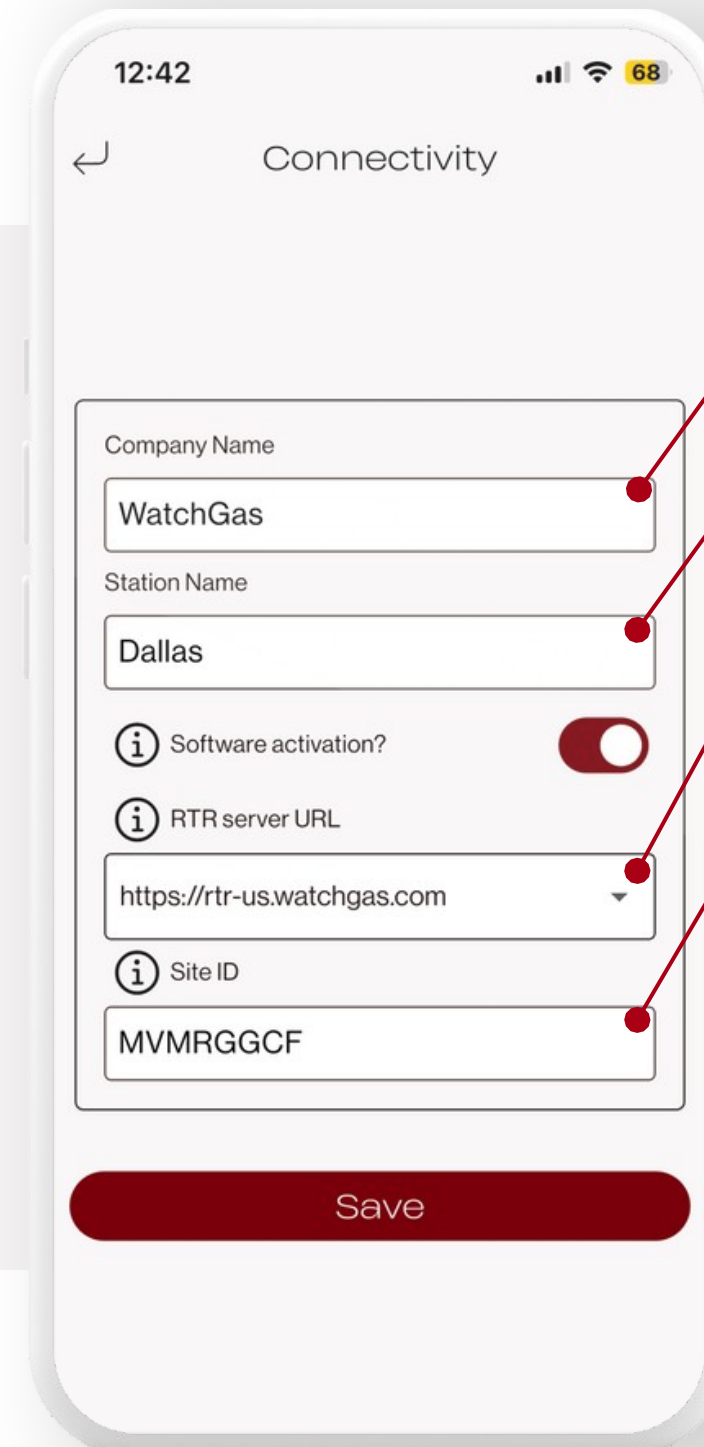

2 Enter password "service" and click enter

Quick Setup – Connect infrastructure (2/5)

Next step is to connect infrastructure. Dock, Kiosk and Device link (phone app) all follow the same process. Make sure you're connected to a Wi-Fi.

3 Scroll down and find connectivity

- 4** Fill in your company name
- 5** Name your station. E.g. "control room docking station"
- 6** Select **rtr-us.watchgas.com** server
- 7** Enter the unique Site ID generated in the previous step. Click Save.
- 8** When you see the green banner, it indicates that the connection has been successfully established.

Quick Setup - Site (3/5)

Return to the RTR website and click on "Test Site" to access the site dashboard.

The screenshot shows the watchgas RTR Solution dashboard. On the left is a dark sidebar with the watchgas logo and navigation links: Users, Sites (highlighted), Settings, About, and Contact. The main content area is titled "Sites for Demo Company" and includes a user profile for Nemanja Krstonic. Below this is a table with columns for Site name, ID, Contact details, Total units, and Unit alert. A single row is visible with "Test Site" highlighted in the Site name column. The table data is as follows:

Site name	ID	Contact details	Total units	Unit alert
Test Site	MVMRFGCF	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	0	

Note: One infrastructure product can be connected to single site at a time.

Quick Setup - Site (4/5)

A new dock has been connected.

Repeat this process for each new infrastructure product you have.

Note: One infrastructure product can be connected to single site at a time.

Users Sites Settings About Contact

Detectors

0	Total units	0	Units in compliance
0	Units not checked in (24h)	0	Units not compliant

Actions

0	Units with alarm
0	Units require attention

Dock

1	Total Docks
1	Docks online
0	Docks on battery
0	Docks low gas
0	Docks gas expire

Kiosk

0	Total kiosk
0	Online kiosk
0	Offline kiosk
0	Kiosk on battery
0	Mains

Device link

0	Total device links
0	Active device links

Quick Setup – Done (5/5)

All set!

You can now use your infrastructure products (docks, kiosks, device links).

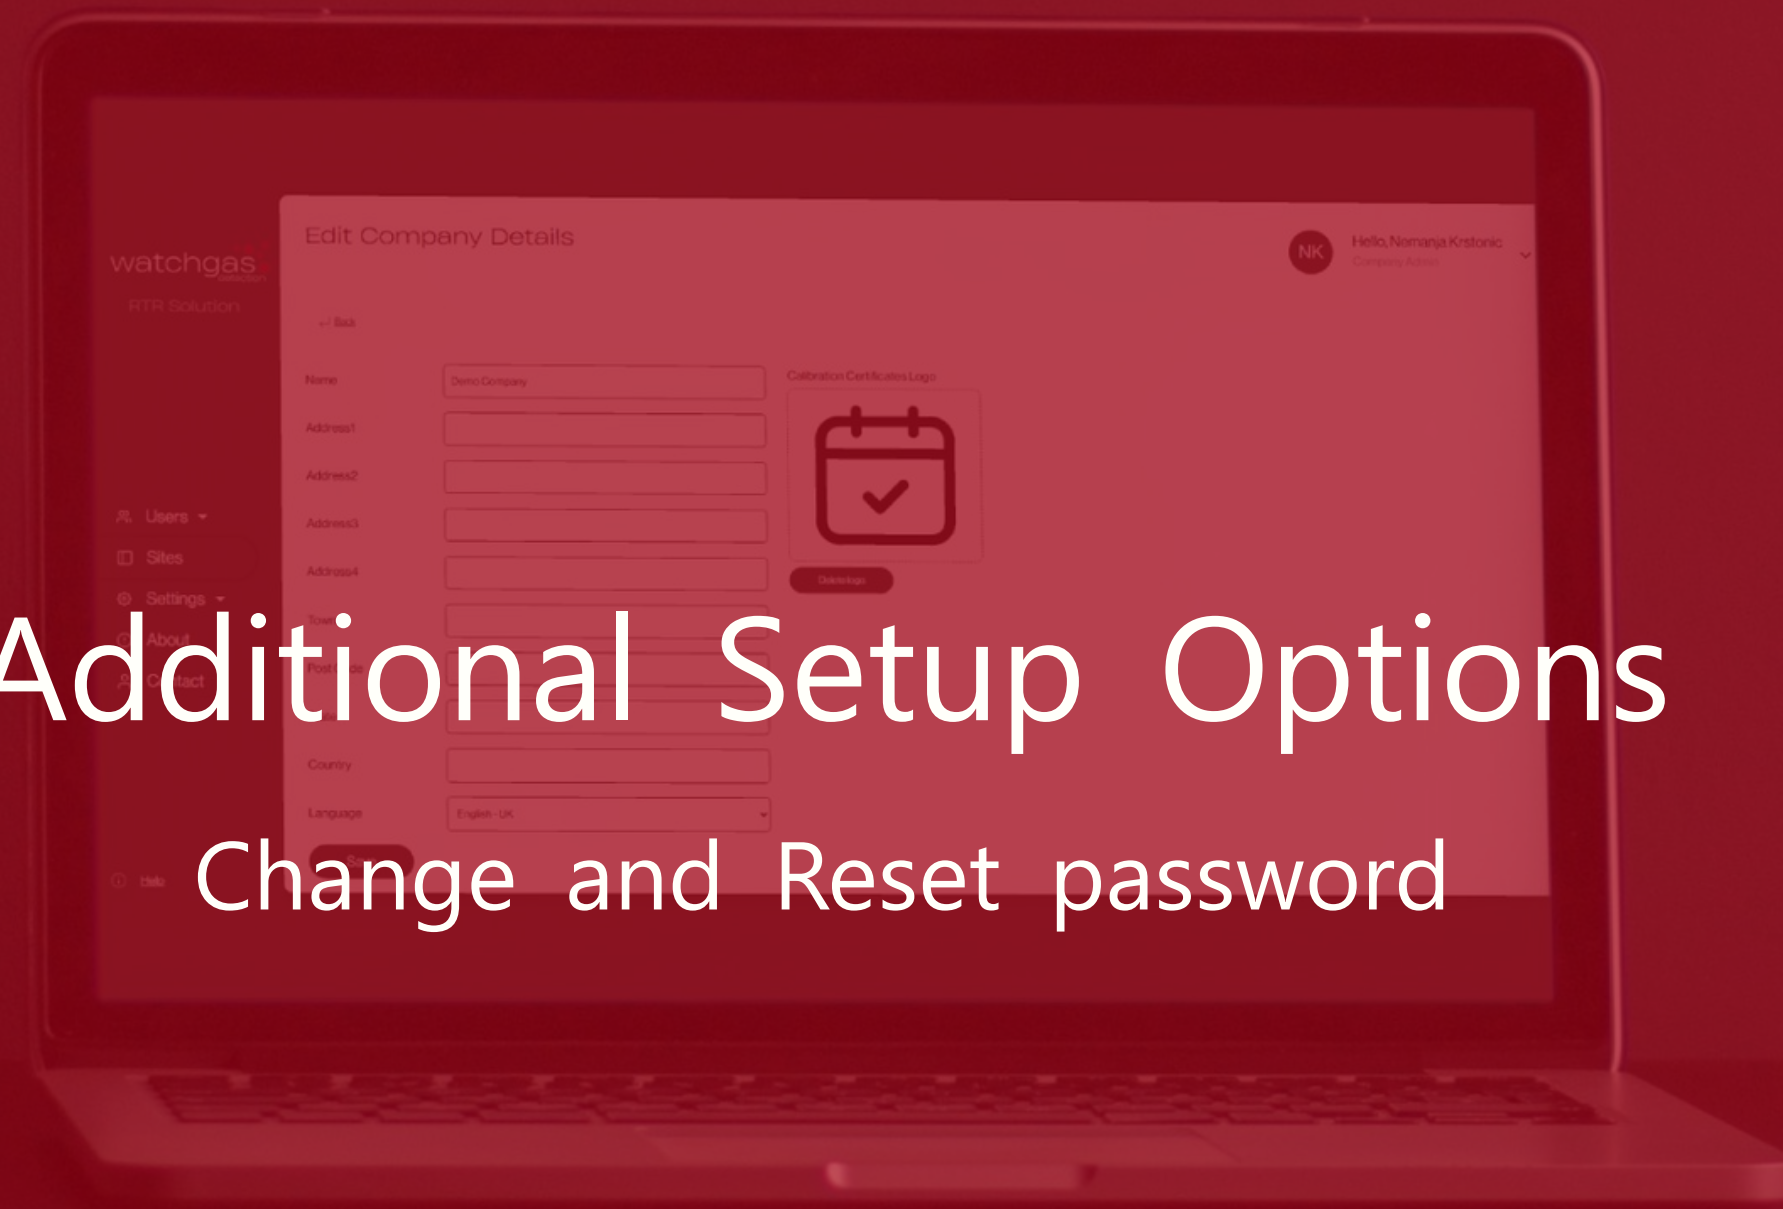

When a unit is scanned, it will automatically appear in the detector's dashboard.

All data is automatically sent to RTR without the need for manual transfer.

The screenshot shows the watchgas RTR Solution dashboard for "Demo Company" on 22/05/2025 at 13:08. The user is Nemanja Krstonic, Company Admin. The dashboard is divided into several sections:
 - **Detectors**: A grid of six cards showing unit counts. The "Total units" card (0) is circled in red, with a red line pointing from the text "appear in the detector's dashboard". Other cards include "Units in compliance" (0), "Units not checked in (24h)" (0), "Units not compliant" (0), "Units with alarm" (0), and "Units require attention" (0).
 - **Dock**: A grid of five cards showing dock status. "Total Docks" is 1, "Docks online" is 1, and "Docks on battery", "Docks low gas", and "Docks gas expire" are all 0.
 - **Kiosk**: A grid of five cards showing kiosk status. "Total kiosk" is 0, "Online kiosk" is 0, and "Offline kiosk", "Kiosk on battery", and "Mains" are all 0.
 - **Device link**: A grid of two cards showing device link status. "Total device links" is 0 and "Active device links" is 0.
 - **Left sidebar**: Contains navigation links for Users, Sites, Settings, About, and Contact.
 - **Top right**: Shows the user profile and a "Hello, Nemanja Krstonic" message.
 - **Bottom left**: A "Help" link.

Additional Setup Options

Change and Reset password

Change Password (1/3)

After your first login, you can change or reset your password.

- 1 Go to **Settings**
- 2 Click **My Details**

The screenshot shows the Watchgas RTR Solution dashboard. On the left is a dark sidebar with the Watchgas logo and "RTR Solution" text. Below the logo are menu items: "Users", "Sites", and "Settings". The "Settings" menu is expanded, showing "My Details", "Notifications", and "Company". "My Details" is highlighted with a red rounded rectangle. The main content area is titled "Sites for Demo Company" and includes a user profile "Hello, Nemanja Krstonic" and an "Add New Site" button. Below this is a table of sites.

Site name	ID	Contact details	Total units	Unit alert
Control room	ANXWRPE0	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	0	
Test Site	MVMRFGCF	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	2	1

Change Password (2/3)

- 3 In **My Details**, find the **Change Password** option.
- 4 Click **Change Password** – this will open a new page.

NK Hello, Nemanja Krstonic
Company Admin ▾

Language: English - UK ▾

Change Password (3/3)

- ⑤ Enter your current password.
- ⑥ Enter your new password.
- ⑦ Re-enter your new password to confirm.
- ⑧ Click "Done" to complete the process.

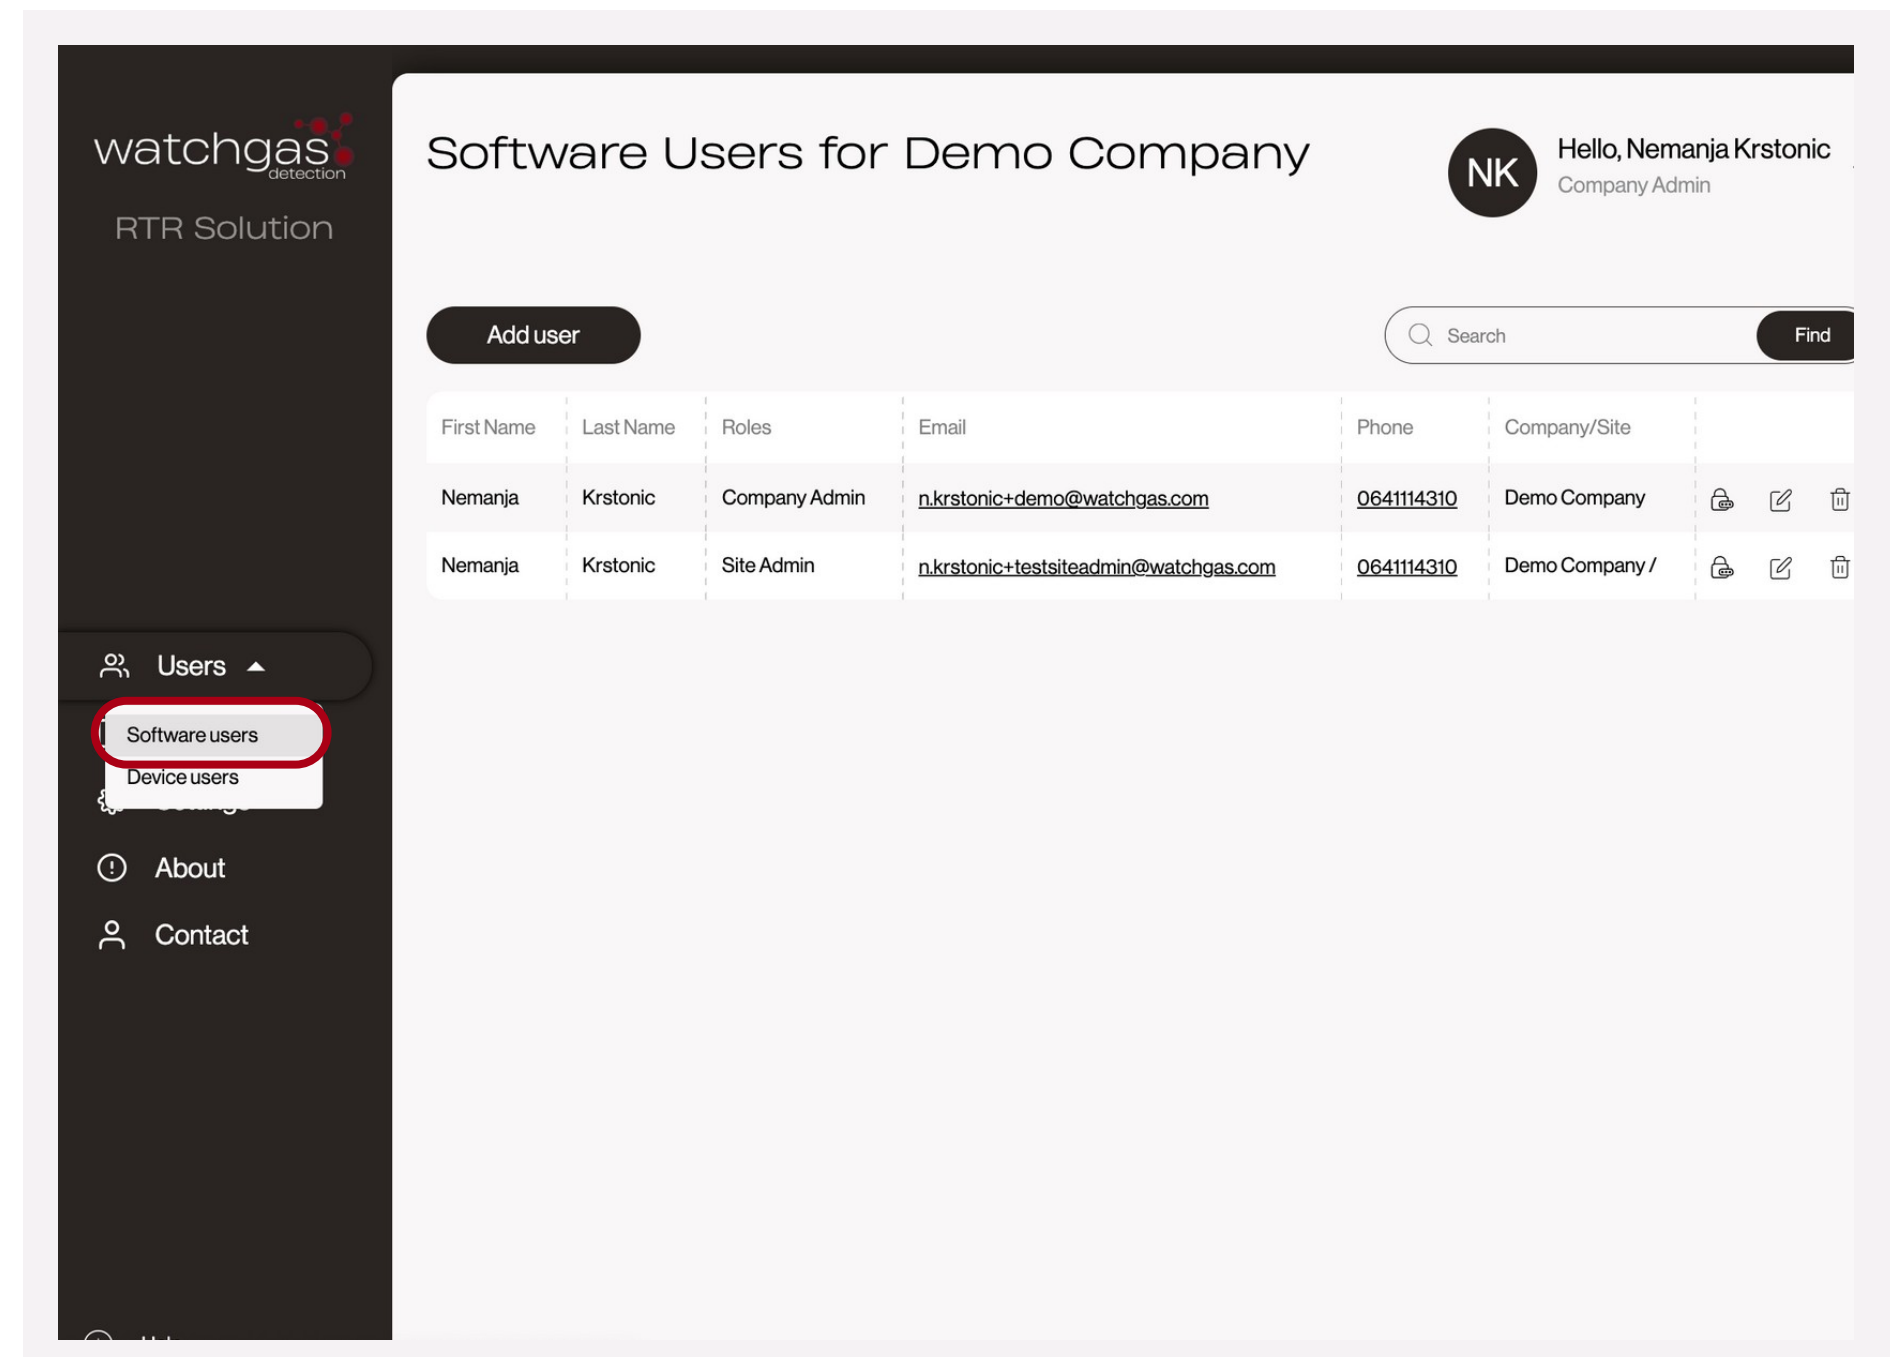

A screenshot of the watchgas RTR Solution web application. The interface has a dark sidebar on the left with the watchgas logo and "RTR Solution" text at the top. Below the logo are navigation links: "Users", "Sites", "Settings" (highlighted with a dropdown arrow), "About", and "Contact". The main content area is light gray and titled "Change Password". It contains three input fields labeled "Current password", "New password", and "Confirm new password". Below these fields is a dark button labeled "Change password". In the top right corner of the main area, there is a user profile section with a circular avatar containing the letters "NK" and the text "Hello, Nemanja Krstor" and "Company Admin" below it.

Reset password (1/2)

As an administrator, you have the ability to reset passwords for users who have forgotten their credentials or require a new password for security reasons.

To reset a user's password:

- 1 Navigate to the **Users** section in the admin panel.
- 2 Select **Software Users** from the list.
- 3 Locate and click on the specific user's name to open their profile.

Reset password (2/2)

4 Search or Browse

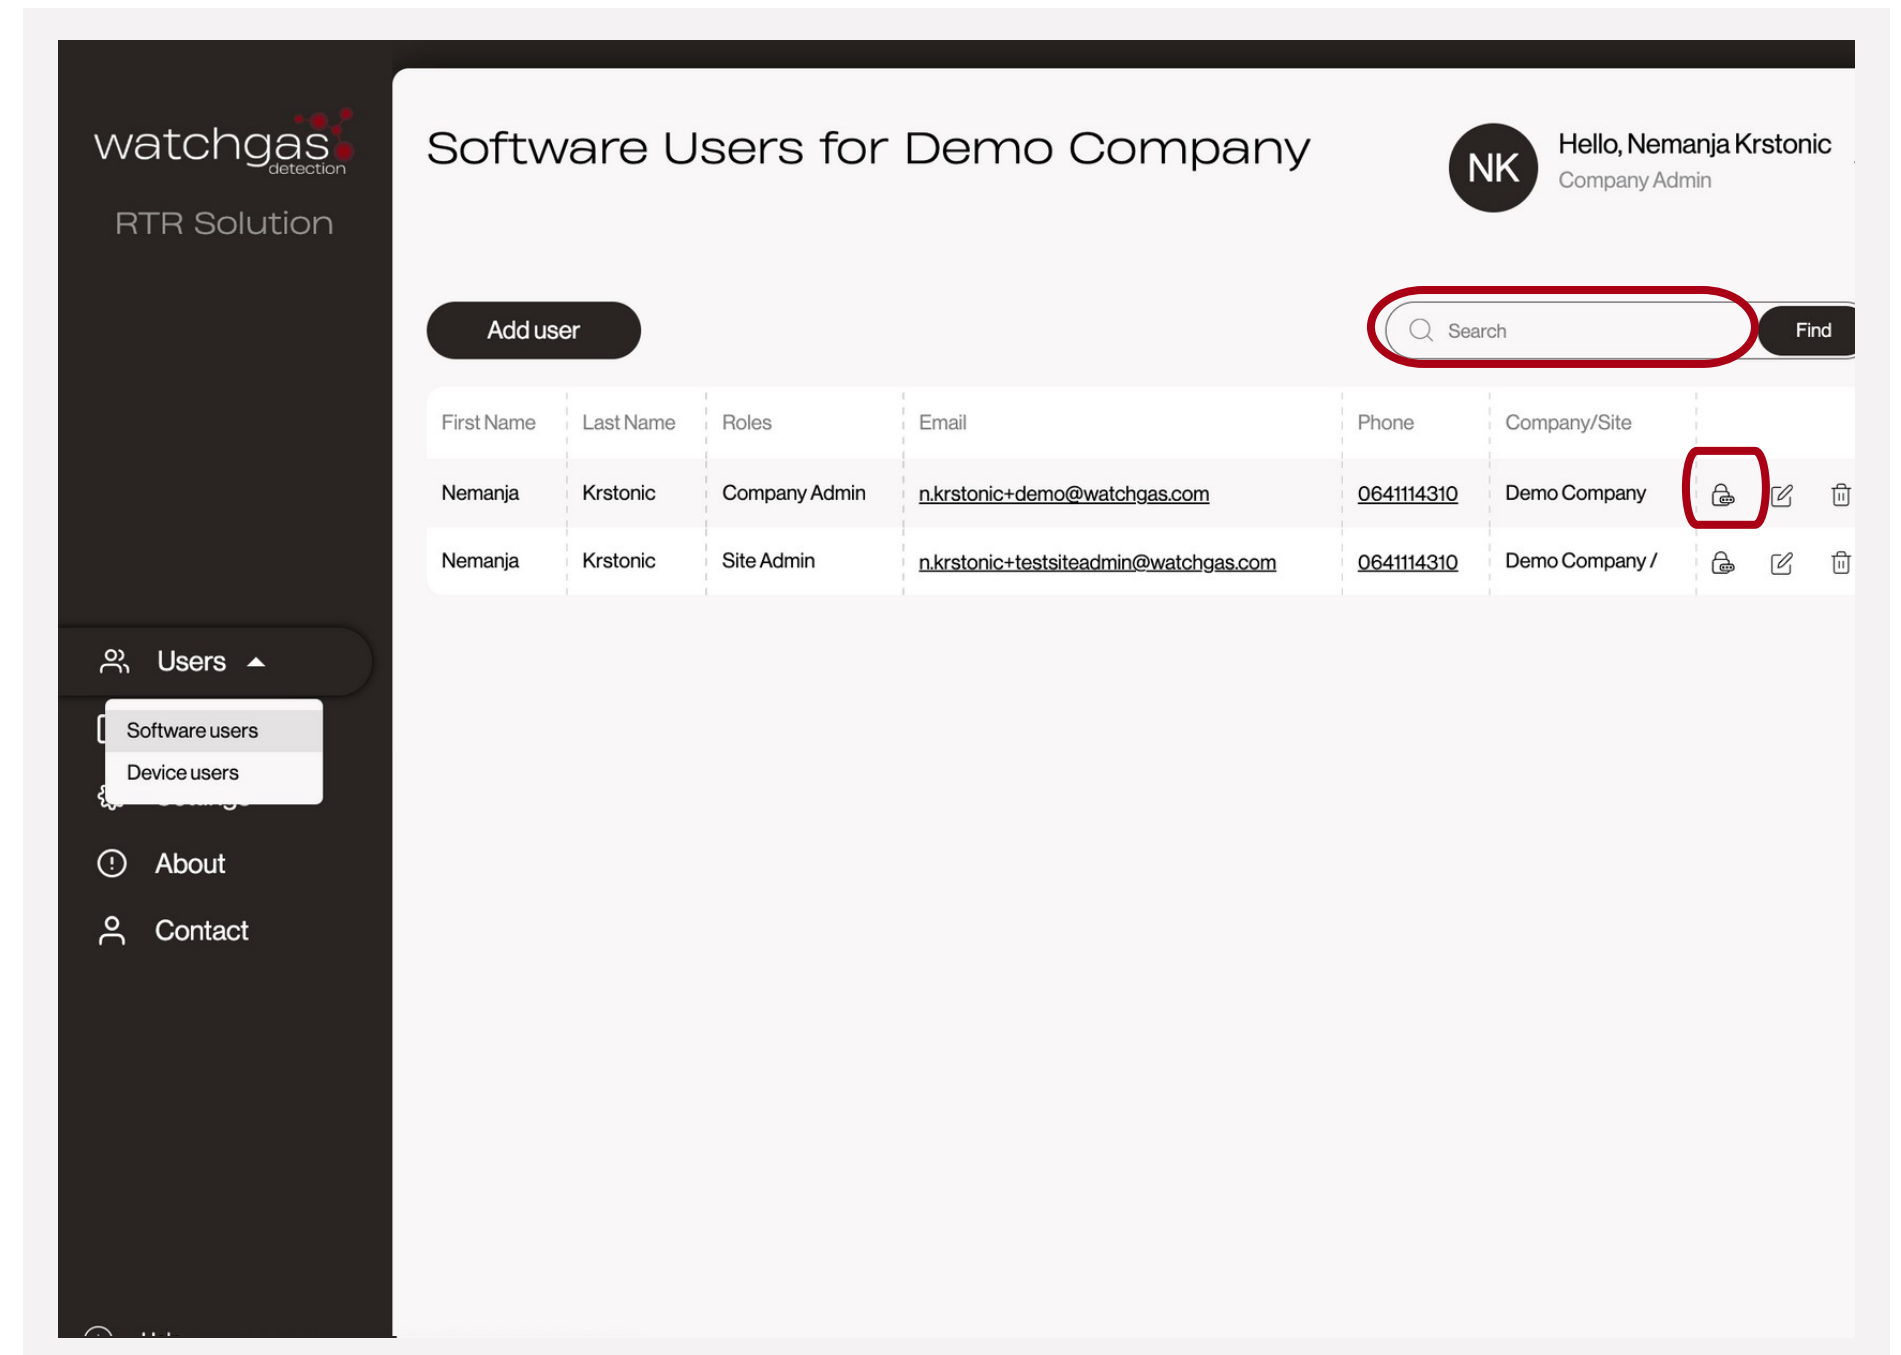

- Use the **search bar** to find the user by first name, last name, or email.
- Alternatively, scroll through the **user table** to locate them.

5 Initiate Password Reset

- Once you've found the user, click the **lock icon** next to their name.
- Confirm the password reset when prompted.

6 Password Delivery

- The user will automatically receive a **password reset email** with further instructions.

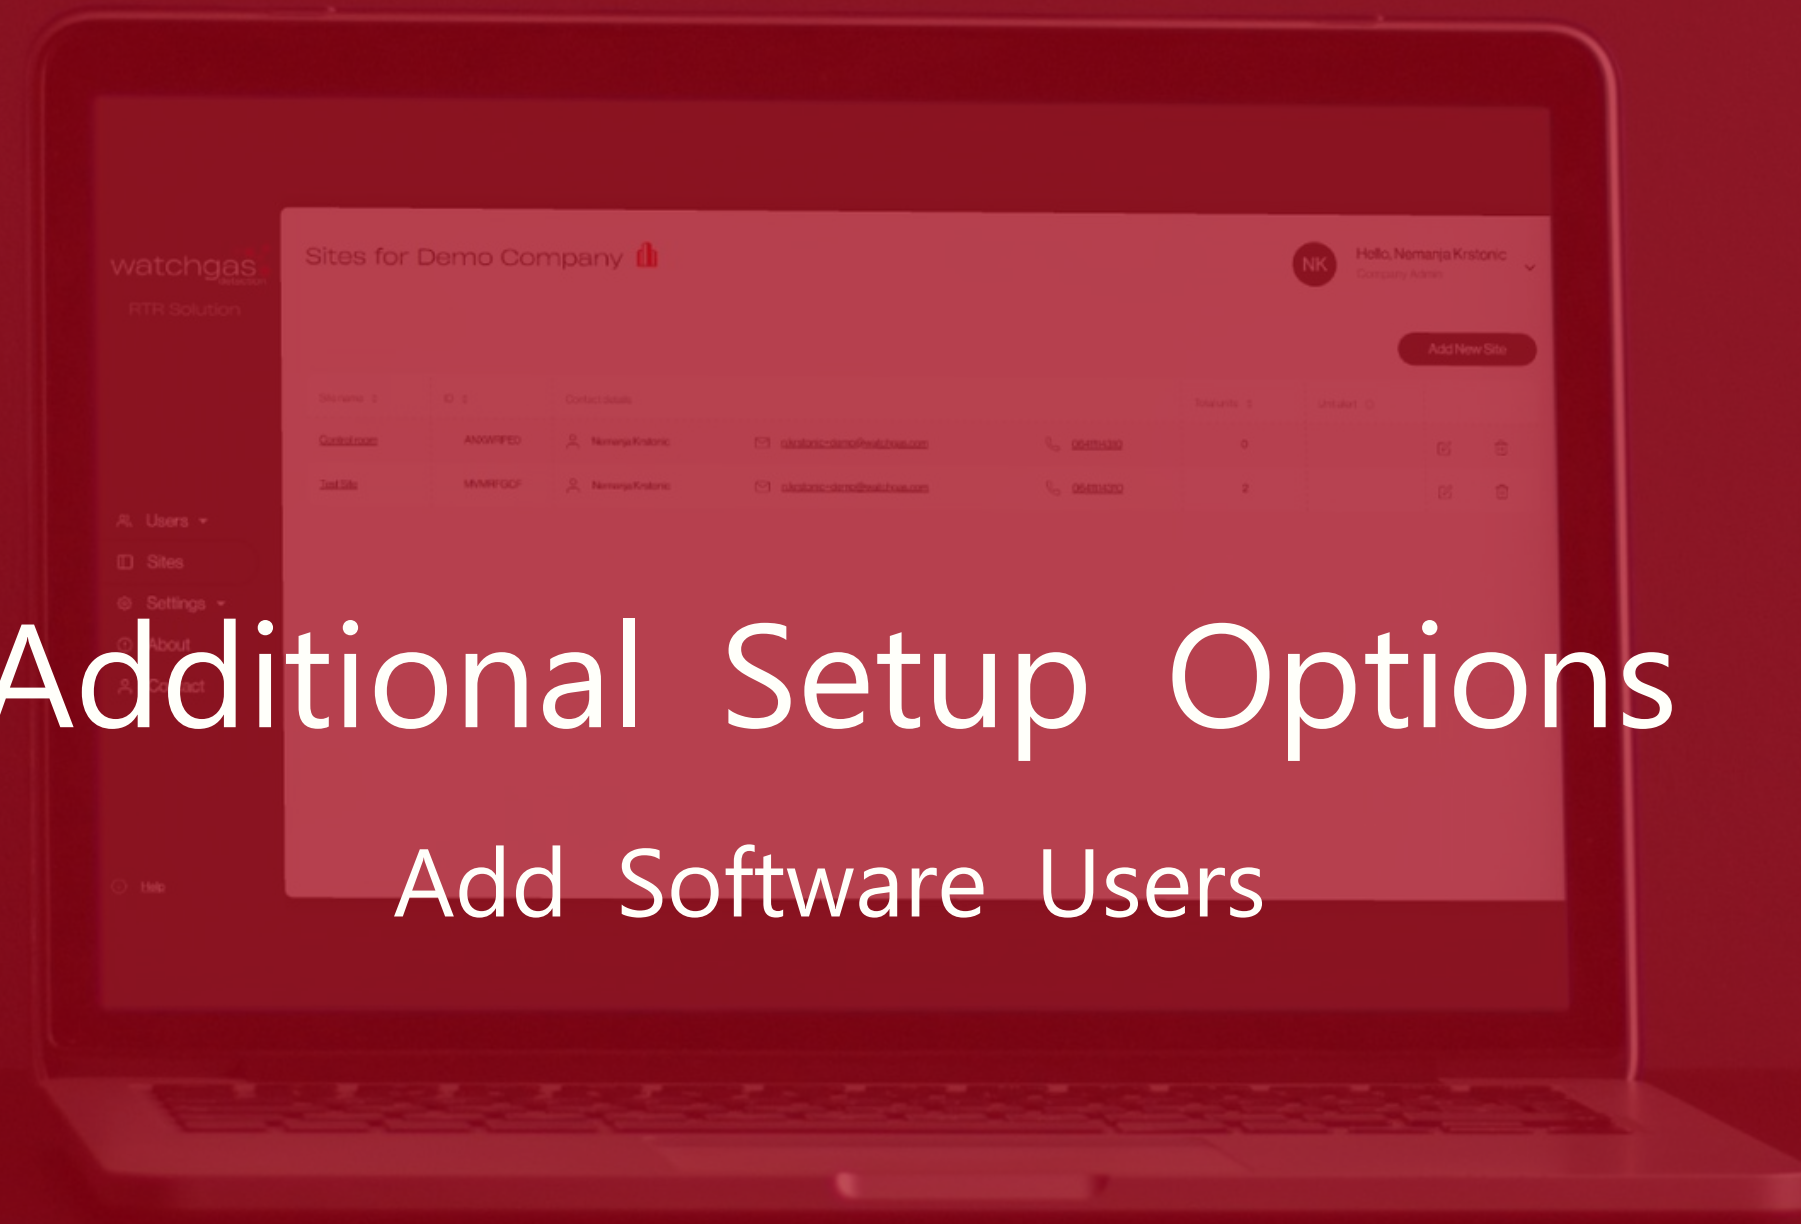

The screenshot displays the 'Software Users for Demo Company' interface. On the left is a dark sidebar with the 'watchgas detection' logo and 'RTR Solution' text. Below the logo is a 'Users' menu with options for 'Software users' and 'Device users', along with 'About' and 'Contact' links. The main content area features a header with the title 'Software Users for Demo Company', a user profile for 'Hello, Nemanja Krstonic, Company Admin' (with initials 'NK'), and an 'Add user' button. A search bar with a 'Find' button is also present. Below this is a table of users:

First Name	Last Name	Roles	Email	Phone	Company/Site	
Nemanja	Krstonic	Company Admin	n.krstonic+demo@watchgas.com	0641114310	Demo Company	  
Nemanja	Krstonic	Site Admin	n.krstonic+testsiteadmin@watchgas.com	0641114310	Demo Company /	  

Additional Setup Options

Add Software Users

Add Software User (1/3)

You can add an **unlimited number of users** with different access roles.

To begin:

- 1 Go to **Users** → **Software Users**
- 2 Click **Add User** to create a new account

Note: User roles determine access to features and data visibility.

The screenshot shows the Watchgas detection RTR Solution interface. The sidebar on the left contains the Watchgas logo, 'RTR Solution', and a 'Users' menu with 'Software users' and 'Device users' options. The main content area is titled 'Sites for Demo Company' and features a table with columns for Site name, ID, Contact details, Total units, and Unit alert. The table lists two sites: 'Control room' and 'Test Site'. The 'Test Site' row shows a red alert icon. An 'Add New Site' button is located in the top right corner of the main content area.

Site name	ID	Contact details	Total units	Unit alert
Control room	ANXWRPE0	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	0	
Test Site	MVMRFGCF	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	2	1

Add Software User (2/3)

This page shows you all registered users. You can edit delete and change user details from edit button on the right.

3 To add new user click **Add User**

Add Software User (3/3)

To add a user, fill in the required **user details**.

Selecting Roles:

- **Company Admin - Has full access to all data across the company.**
(Can view and manage all sites)
- **Site Admin - Has full access to a single site only.**
(Can view and manage only the selected site)
 - After selecting **Site Admin** as the role, a **dropdown menu** will appear.
 - Use this dropdown to select the **specific site** the user should have access to.

The screenshot shows the 'Create new user for Demo Company' interface. On the left is a dark sidebar with the 'watchgas detection RTR Solution' logo and a menu with 'Users', 'Sites', 'Settings', 'About', and 'Contact'. The main content area has a header with the title and a user profile for 'Nemanja Krstonic, Company Admin'. Below the title is a 'Back' link. The form contains input fields for 'First name', 'Last name', 'Email', and 'Mobile phone' (with a country code dropdown). To the right of these fields is a 'Language' dropdown set to 'English - UK'. Below the input fields are three rows of checkboxes for roles: 'Company Admin', 'Supervisor', and 'Operator', each with a corresponding 'Site' role (Site Admin, Site Supervisor, Site Operator). A 'Create' button is at the bottom left of the form area.

Additional Setup Options

Email Notifications Setup

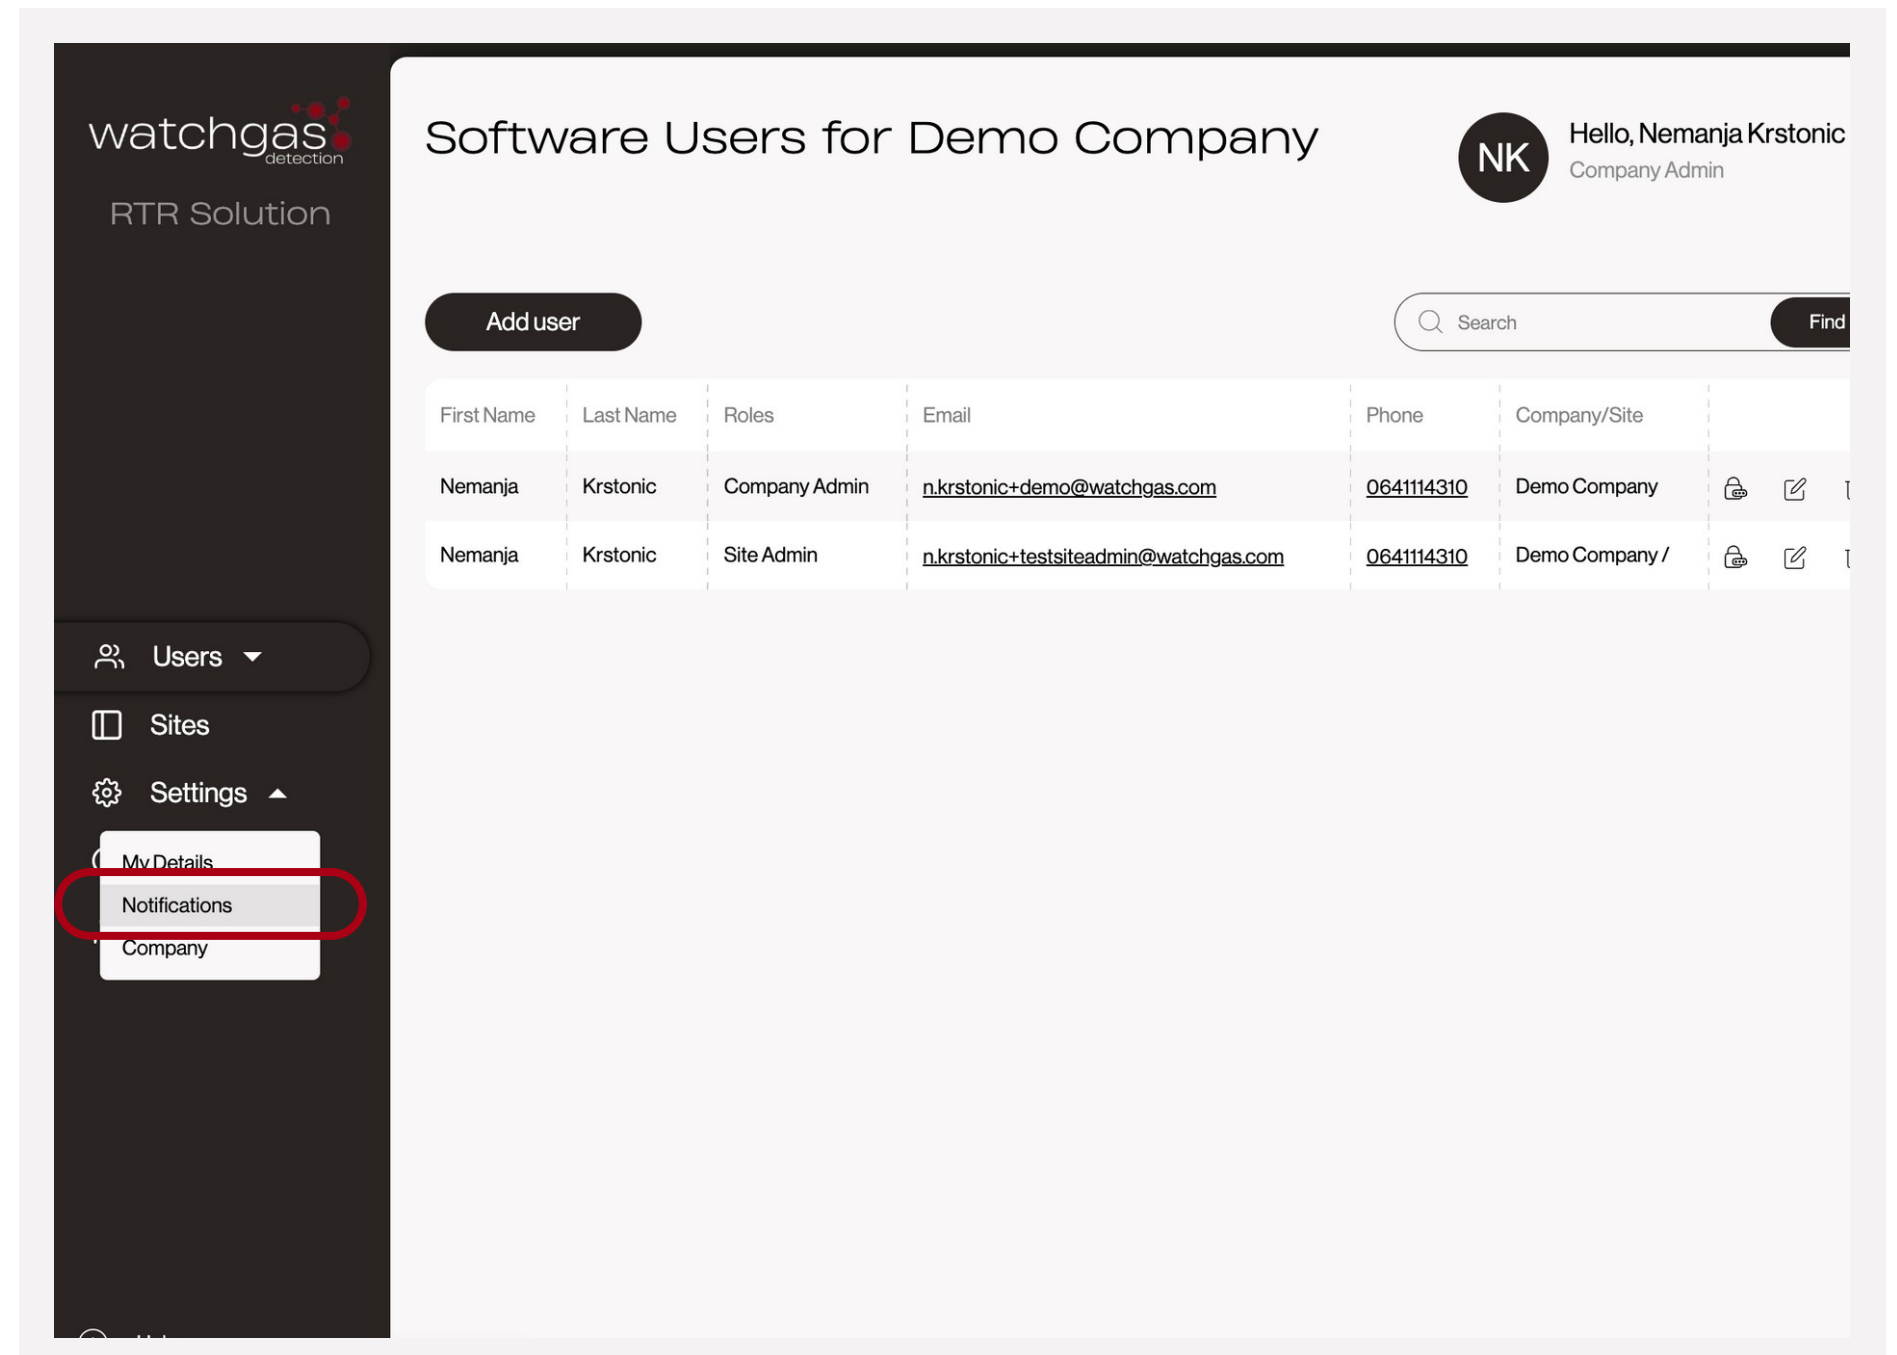

Email Notification Setup (1/4)

Email notifications allow you to create **custom alerts** and assign **responsible personnel** to ensure timely responses.

Notification Types:

- Gas Alert
- Not Checked In
- Gas Status
- Faults
- Units Require Attention

1 Go to **Settings** → **Notifications** to configure alerts.

The screenshot displays the Watchgas RTR Solution interface. On the left, a dark sidebar contains the 'watchgas detection' logo and 'RTR Solution' text. Below this, a menu lists 'Users', 'Sites', 'Settings', 'My Details', 'Notifications' (highlighted with a red circle), and 'Company'. The main content area is titled 'Software Users for Demo Company' and includes a user profile for Nemanja Krstonic (Company Admin). Below the profile is a table of users:

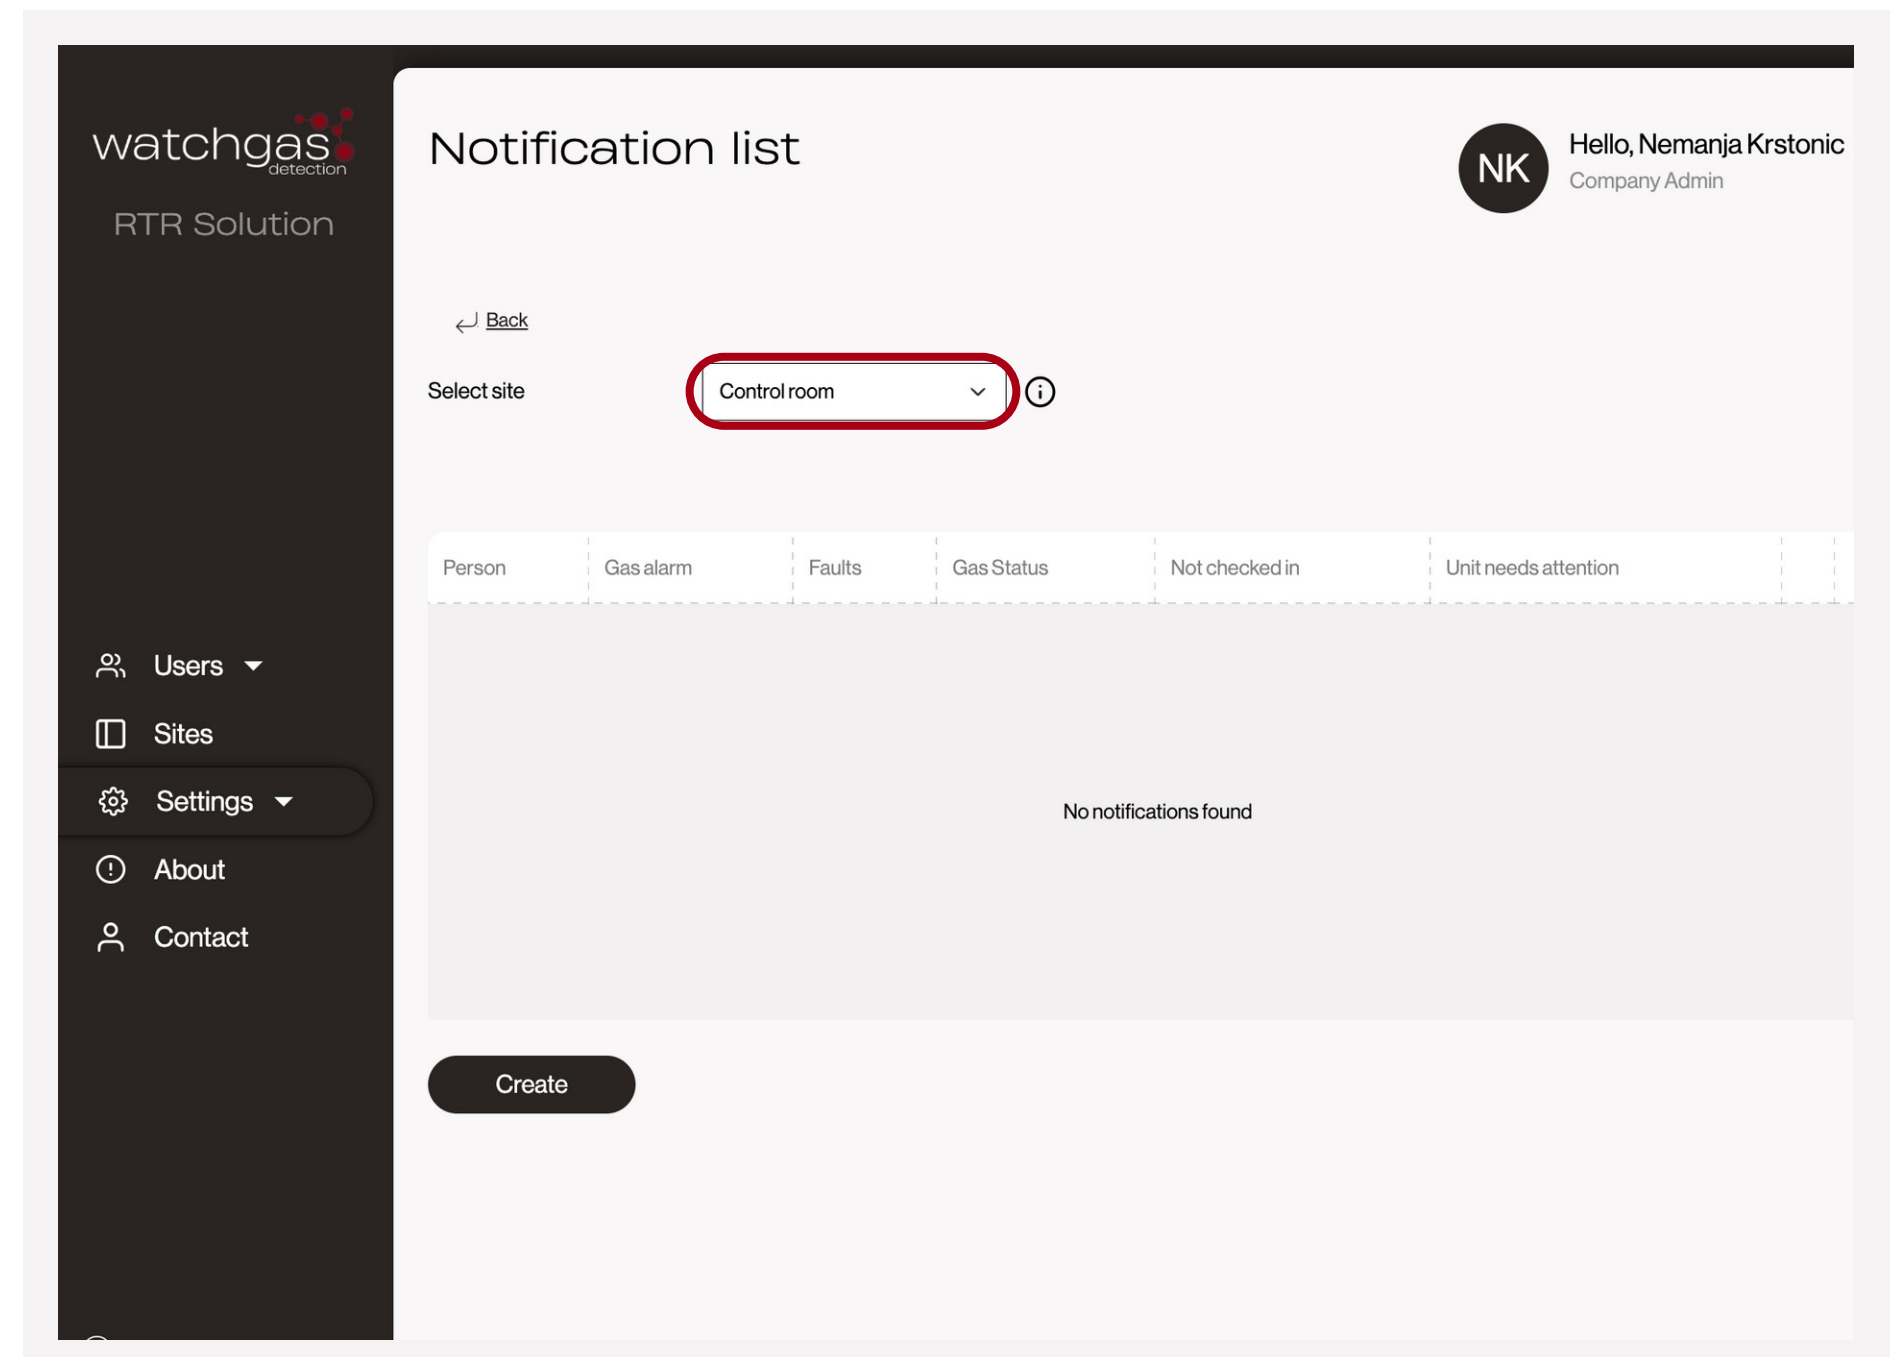

First Name	Last Name	Roles	Email	Phone	Company/Site	
Nemanja	Krstonic	Company Admin	n.krstonic+demo@watchgas.com	0641114310	Demo Company	 
Nemanja	Krstonic	Site Admin	n.krstonic+testsiteadmin@watchgas.com	0641114310	Demo Company /	 

Email Notification Setup (2/4)

Notifications must be configured separately for each site.

To start:

- ② Select the site from the **dropdown menu**.
- ③ All previously created sites will be available in the list.
- ④ Choose the site where you want to set up notifications.
- ⑤ And click create.

Email Notification Setup (3/4)

- ⑥ Enter the **Name** and **Alert Email**.
- ⑦ Tick the boxes for the functions you want to receive alerts for.
- ⑧ Click **Save**.

Note: You can select multiple functions for a single user.

The screenshot displays the 'User notification' configuration interface for the Watchgas detection system. The left sidebar contains navigation links: Users, Sites, Settings (highlighted), About, and Contact. The main content area is titled 'User notification' and specifies 'For site: Control room'. A user profile 'NK Hello, Nemanja Krstonic Company Admin' is visible in the top right. The form includes a 'Back' link, a 'Name' field (containing 'Safety Manager'), a 'Function' section with checkboxes for 'Gas alarm' (checked), 'Faults', 'Gas status', 'Not checked in', and 'Unit needs attention', and an 'Alert email' field (containing 'safety.manager@watchgas.com'). A 'Save' button is located below the form fields. Red boxes are drawn around the 'Name' field, the 'Gas alarm' checkbox, and the 'Alert email' field to indicate the required input steps.

Email Notification Setup (4/4)

After saving, a new entry will appear in the table. You can **edit** or **delete** the user directly from this page.

Notes:

- To add more recipients, repeat the process.
- To add recipients for a different site, select the new site from the **dropdown menu first**.

Star Rating Setup (1/4)

The **Star Rating** feature helps you define attention levels for your WatchGas fleet.

To set it up:

- 1 Go to **Sites**
- 2 Select the site you want to configure

Note: Star ratings must be set up **individually for each site.**

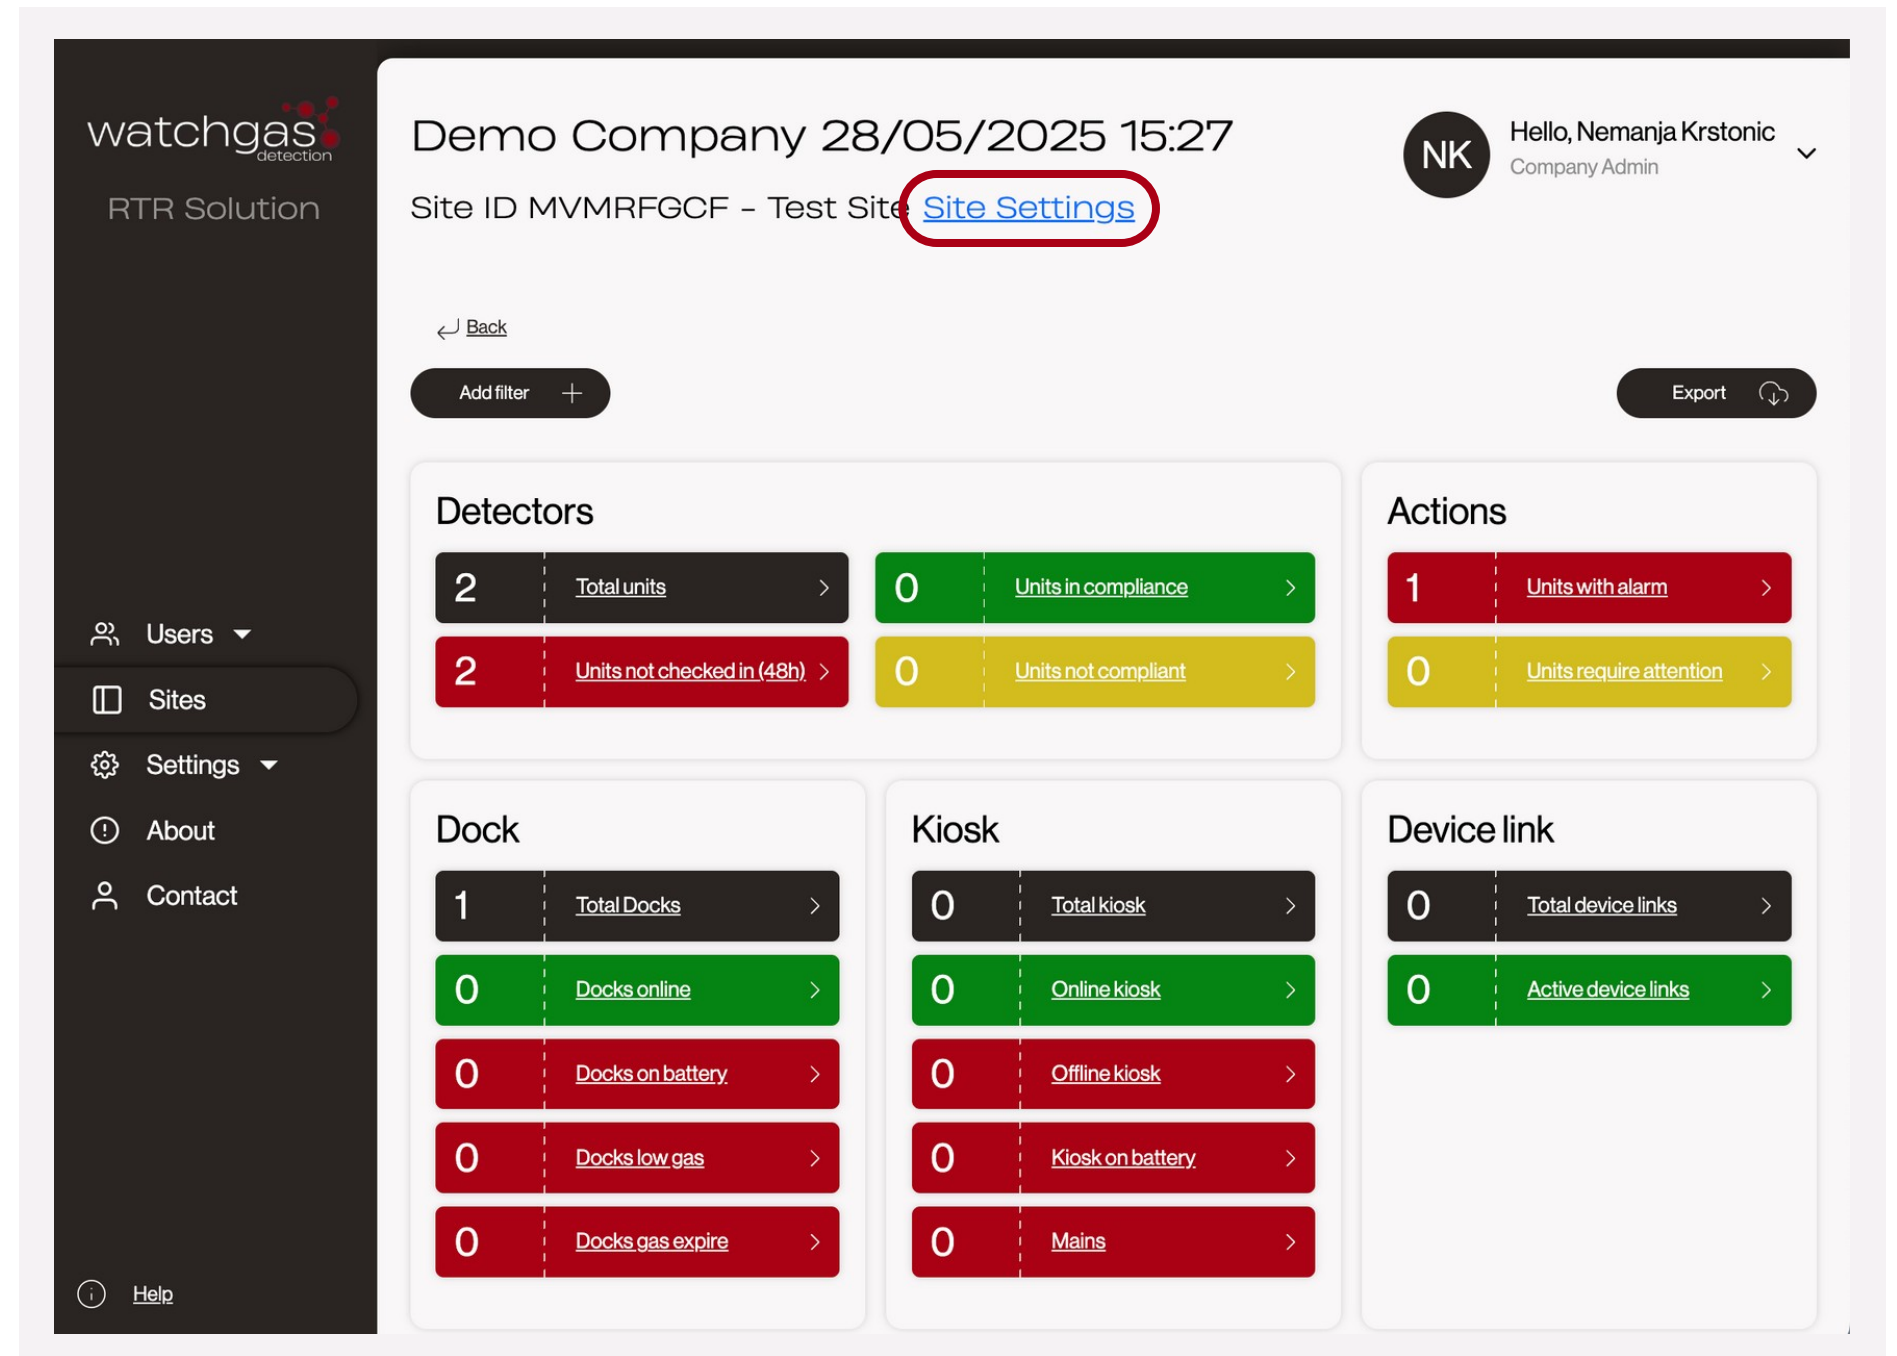

The screenshot shows the WatchGas RTR Solution interface. On the left is a dark sidebar with the WatchGas logo and navigation links: Users, Sites (highlighted with a red circle), Settings, About, and Contact. The main content area is titled 'Sites for Demo Company' and includes a user profile for Nemanja Krstonic. Below the title is a table of sites. The 'Test Site' is highlighted with a red circle in the table. An 'Add New Site' button is in the top right of the table area.

Site name	ID	Contact details	Total units	Unit alert
Control room	ANXWRPE0	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	0	
Test Site	MVMRFGCF	Nemanja Krstonic n.krstonic+demo@watchgas.com 0641114310	2	!

Star Rating Setup (2/4)

- On your **Site Dashboard**, navigate to **Site Settings**.

This will open a new page where you can configure the **Star Rating**.

The screenshot shows the 'watchgas detection' RTR Solution interface. The top header displays 'Demo Company 28/05/2025 15:27' and 'Site ID MVMRFGCF - Test Site'. A red circle highlights the 'Site Settings' link. The left sidebar contains navigation options: Users, Sites, Settings (selected), About, and Contact. The main content area is divided into several sections: Detectors, Actions, Dock, Kiosk, and Device link. Each section contains a list of metrics with their current values and links to configure them.

Section	Metric	Value	Link
Detectors	Total units	2	>
	Units in compliance	0	>
	Units not checked in (48h)	2	>
	Units not compliant	0	>
Actions	Units with alarm	1	>
	Units require attention	0	>
Dock	Total Docks	1	>
	Docks online	0	>
	Docks on battery	0	>
	Docks low gas	0	>
	Docks gas expire	0	>
Kiosk	Total kiosk	0	>
	Online kiosk	0	>
	Offline kiosk	0	>
	Kiosk on battery	0	>
	Mains	0	>
Device link	Total device links	0	>
	Active device links	0	>

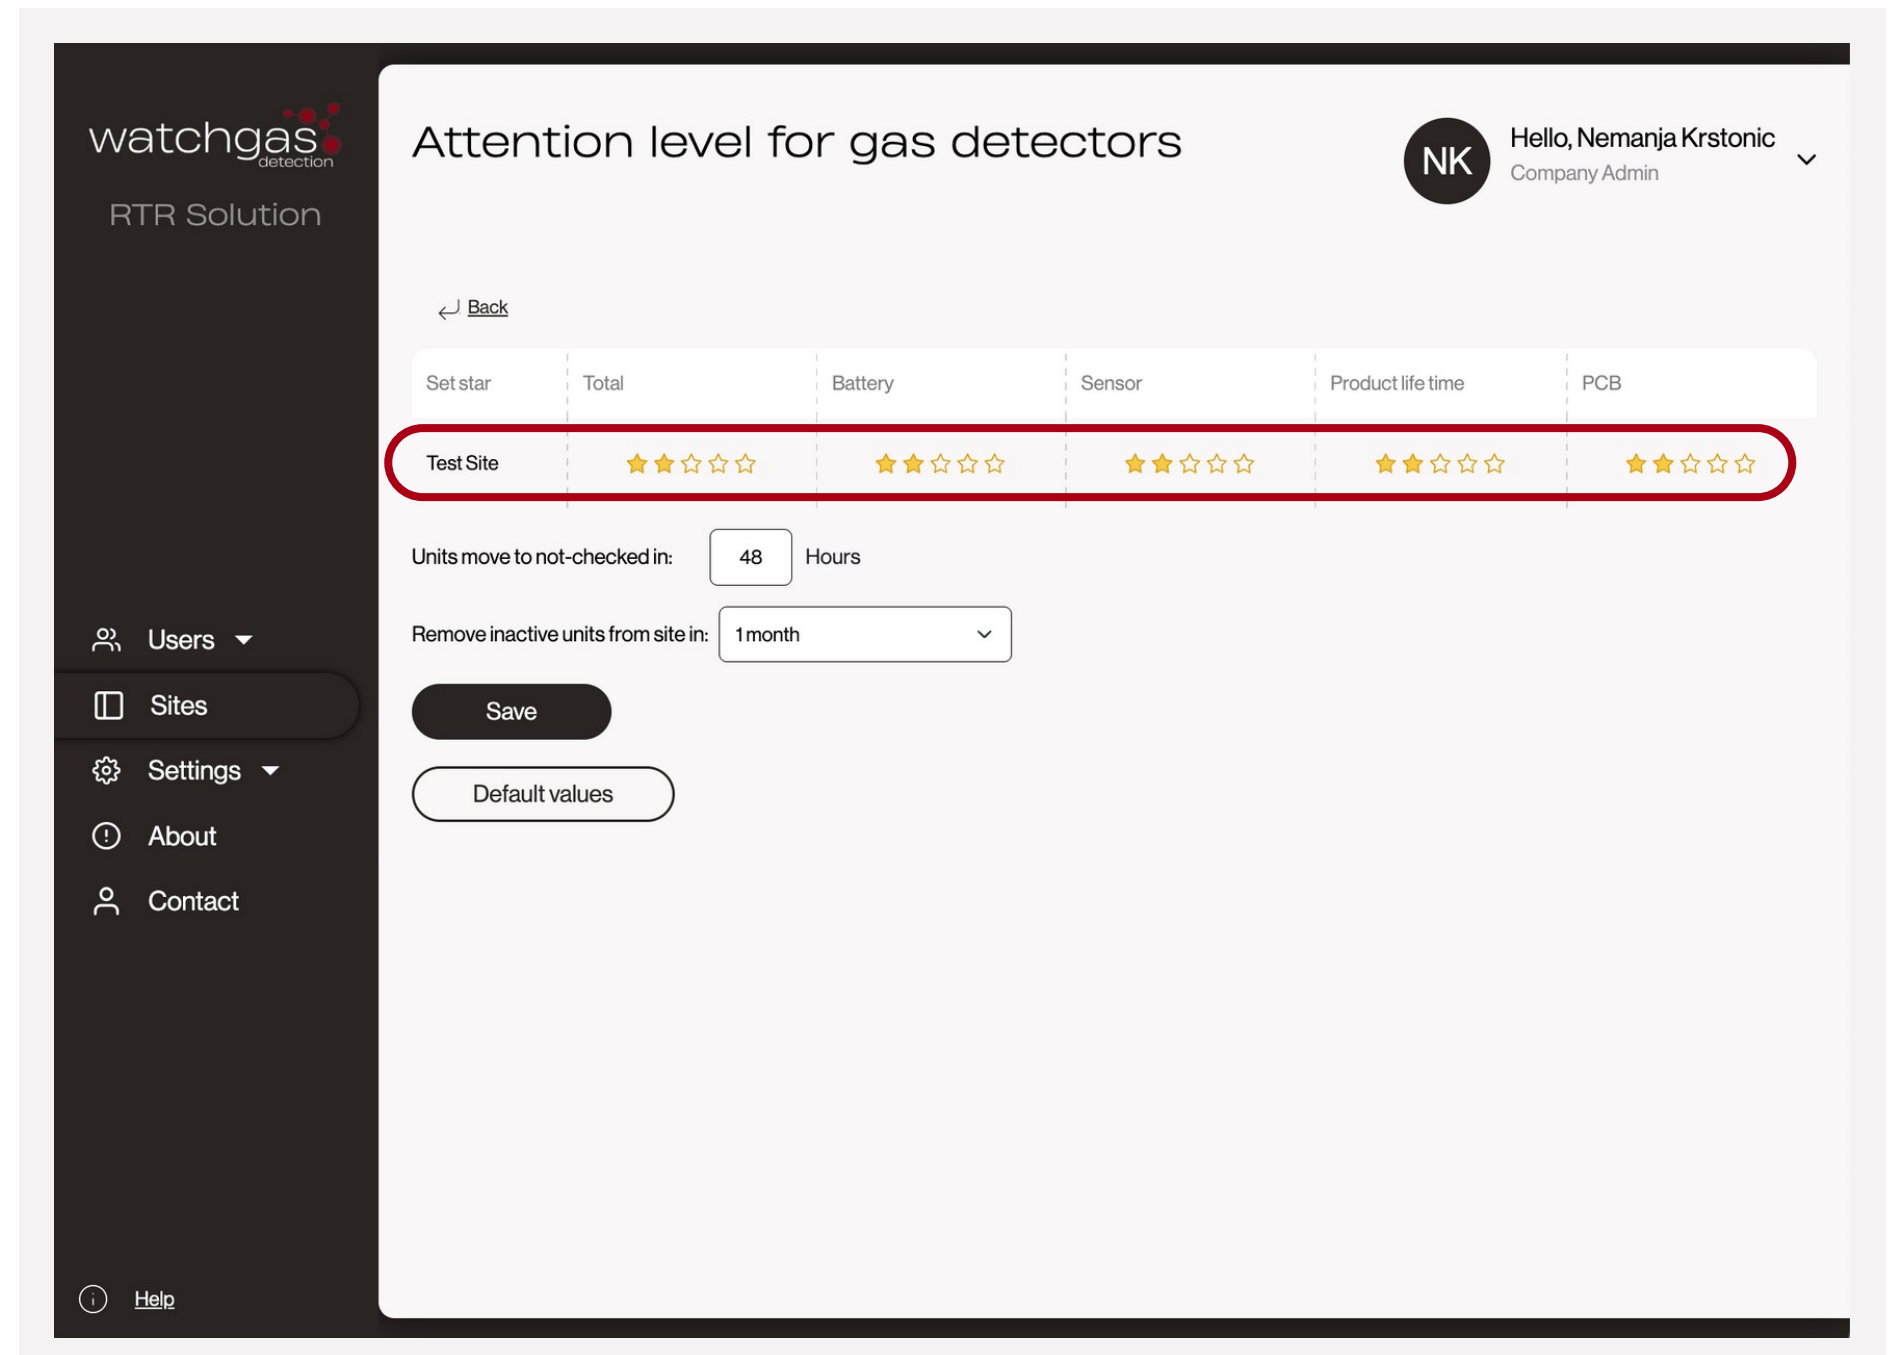

Star Rating Setup (3/4)

Star ratings can be configured individually for **each component**.

To start:

- ④ Click the number of stars you wish to assign to a component to lock in the rating.
- ⑤ Refer to the **manual** for detailed explanations of each star level.
- ⑥ Save changes.

Note: WatchGas recommends a **2-star rating** for each component as a baseline.

Set star	Total	Battery	Sensor	Product life time	PCB
Test Site	★★★★★	★★★★★	★★★★★	★★★★★	★★★★★

Star Rating Setup (4/4)

Once the star rating is configured:

- If any gas detector component **falls below** the selected rating, the unit will appear in the **“Units Require Attention”** section. (picture)
- It will **remain there** until the issue is resolved.

If **Email Notifications** are set up:

You'll also receive an **email alert** with details about the gas detector and the reason it requires attention.

The screenshot displays the Watchgas RTR Solution dashboard for 'Demo Company' on 28/05/2025 at 15:35. The user is Nemanja Krstonic, Company Admin. The dashboard shows various metrics for 'Site ID MVMRFGCF - Test Site'. The 'Units Require Attention' section is highlighted with a red circle.

Section	Metric	Value	Status
Detectors	Total units	2	Dark Grey
	Units in compliance	0	Green
Detectors	Units not checked in (48h)	2	Red
	Units not compliant	0	Yellow
Actions	Units with alarm	1	Red
	Units require attention	0	Yellow (Highlighted)
Dock	Total Docks	1	Dark Grey
	Docks online	0	Green
	Docks on battery	0	Red
	Docks low gas	0	Red
	Docks gas expire	0	Red
Kiosk	Total kiosk	0	Dark Grey
	Online kiosk	0	Green
	Offline kiosk	0	Red
	Kiosk on battery	0	Red
	Mains	0	Red
Device link	Total device links	0	Dark Grey
	Active device links	0	Green

RTR Key Features Overview

Compliance Monitoring

- Overview of all gas detectors across company and sites
- Status by **compliance, checked in/usage control** and **"require attention"**

Star Rating System

- Health score based on sensor health, age, battery, PCB
- Helps prioritize maintenance or replacement

Automated Email notifications

- Gas alerts, Faults, Require attention, gas status, units not checked in

Reporting

- Export logs for audits, compliance meetings, and planning

Flexible Deployment

- Cloud-based or on-premises installation
- Public API for integration with internal platforms
- No IT involvement to get started

Thank you!
