

SST Range 5-Way Stackable Charger

MODULAR MULTI-DEVICE CHARGING SOLUTION FOR THE SST RANGE

Applications

- Control rooms
- Laboratories
- Workshops
- Site offices
- Fleet management stations
- Maintenance areas
- Training centres
- Safety departments

Features and Benefits

Multi-Device Charging

Charge up to five SST Range devices at the same time from one centralized charging cradle. This eliminates multiple chargers and cables, reduces setup time, and ensures devices are always ready for use at the start of a shift.

Flexible Mounting

Designed for both desktop and wall mounting using standard 4.8 mm screws, allowing installation in any workspace. Devices can also be charged in an upright position, providing flexibility in tight or high-traffic environments.

Stackable & Scalable

Easily expand your charging capacity by stacking and linking up to four cradles using the SST link cable. This modular design grows with your fleet, avoiding costly replacements or reconfiguration as operations scale.

Wide Device Compatibility

One charging solution for multiple device types within the SST range. The cradle supports SST4 Micro, SST4 Mini, SST4 Pump, and SST5, simplifying procurement, training, and inventory management.

Seamless SST Integration

Fully optimized for use within the WatchGas SST Range gas detectors, ensuring reliable charging performance and long-term durability. This guarantees consistent operation and minimizes downtime across your device fleet.

Centralized Power Supply

Power multiple charging cradles from a single SST 5-Way Stackable Charger power supply, reducing the need for multiple outlets and adapters. This simplifies installation, lowers infrastructure complexity, and keeps workspaces organized and safe.

The SST RANGE 5-Way Stackable Charger is a flexible and space-efficient charging solution designed to support daily operations where multiple devices need to be charged simultaneously. Built to integrate seamlessly within the WatchGas SST ecosystem, this charging cradle supports SST4 and SST5 devices and enables scalable charging through a modular, stackable design. Ideal for fixed installations in control rooms, workshops, laboratories, and site offices, the SST 5-Way Stackable Charger helps streamline device management while maintaining a clean and organized workspace.

Technical Specifications

Dimensions	500 × 160.5 × 111.5 mm (19.68 × 6.31 × 4.38 in)
Weight	1.45 kg (3.19 lbs)
Operating Temperature	0 ~ +35 °C (32 ~ 95 °F)
Humidity	10 ~ 90% r.h. (non-condensing)
Storage Temperature	0 ~ +50 °C (32 ~ 122 °F)
Power Supply	15 V DC, 6.0 A (via SST-5WSSC-CHR charger)
Device Compatibility	One module compatible with SST4 Micro, SST4 Mini, SST4 Pump and SST5
Warranty	2-year warranty

Stack & Link Configuration

SST Range Coupling Cable
Link to couple charging stacks
SST-STACK-COU

Power Adapter for Cradle
SST-IND-S

Alternatives

Universal Cradle Charger for SST Range
SST-IND-S

Wireless Vehicle Charger
SST-CAR-CHG

Induction Disk Charger
SST-DISK-CHR

WatchGas SST Range 6-Way Charging Cradle
SST-6WSSC-KIT
